Moral Science and Moral Order James M. Buchanan, 2001 This volume presents a representative sampling of James M Buchanan's philosophical views as he deals with fundamental problems of moral science and moral order As one might expect Buchanan always goes back to fundamental principles first From there his observations and conclusions range far and wide from his own discipline The thirty essays collected in *Moral Science and Moral Order* are divided into these categories Methods and Models Belief and Consequence Moral Community and Moral Order Moral Science Equality and Justice Contractarian Encounters In his foreword Hartmut Kliemt says The British and Scottish Moralists of the Enlightenment period would have felt very comfortable with James Buchanan Like them Buchanan may be seen as a man of letters who concerns himself with fundamental problems of moral science and moral order But also like them Buchanan is not a secondhand dealer in old ideas On the contrary taking as inspiration classical philosopher economists in particular Adam Smith Buchanan not only proposes new applications of the neoclassical economic paradigm he also addresses in innovative ways fundamental issues of his discipline and beyond Kliemt's lengthy foreword highlights some of the major philosophical currents with which Buchanan is engaged in the papers collected in this volume His introduction to these philosophies provides an excellent grounding for economists and all readers who may not be familiar with the philosophical and fundamental issues Buchanan undertakes James M Buchanan 1919 2013 was an eminent economist who won the Alfred Nobel Memorial Prize in Economic Sciences in 1986 and was considered one of the greatest scholars of liberty in the twentieth century

Faith and Action R. J. Rushdoony, 2019-08-26 Faith and Action is the complete collection of the essays of R. J. Rushdoony written for the Chalcedon Report between 1965 and 2001 along with several transcripts of his recorded talks. The large volume The Roots of Reconstruction only contained his Chalcedon Report essays up until 1985 so most of the essays included in Faith Action were unavailable to readers for many years until now. In order to make the author's knowledge more accessible, this three-volume collection features some of the most extensive indexing we've ever done including a General Index, a History Index, a Scripture Index, a Works Cited Index, and a Chalcedon Report Directory. A total of 183 pages of indexing. This handsome set of books is a must-have for any serious library. The central theme of this collection of essays is Christian Reconstruction, which to Rushdoony meant the responsibility of Christian citizenship in the Kingdom of God. For him, his central drive behind his research and writing was to move men to faith and action. Rushdoony was primarily an essayist who vigorously and prolifically wrote on a multiplicity of subjects, issues, and disciplines. Despite his being critical of both the contemporary church for its compromise and the humanistic state for its will to be as God, these essays are replete with Rushdoony's undying faith in the victory of God in history. Rushdoony's big idea was Christian Reconstruction, which centered not on a pursuit of political power but rather an equipping of Christians to take back government by means of self-government in terms of God's law. This three-volume collection will no doubt serve the larger church for many generations as they seek first the Kingdom of God in their spheres and in their times.

Practice Methodologies in Education Research Julianne Lynch, Julie Rowlands, Trevor Gale, Stephen Parker, 2019-10-08 Practice Methodologies in Education Research offers a fresh approach to researching practice in education. Addressing a major gap in research methodology scholarship, it highlights how integral practice theory is to the transformational agendas of education research, introducing a theory of activist practice methodologies informed by expansive theories of practice. With contributions from leading education researchers drawn from across the world, the book confronts onto epistemological dilemmas for doing research that arise from taking practice theory seriously, including the theories of Bourdieu, de Certeau, Deleuze, Haraway, Latour, Taylor, and Vygotsky. A defining feature of the chapters is their activist axiologies and their experimental approach to researching practice in education in fields as diverse as educational leadership, schooling, higher education, adult and workplace education, and training professional practice and informal learning. Practice Methodologies in Education is essential reading for education academics and postgraduates engaged in critical research using practice theory.

Method and Morals in Constitutional Economics Geoffrey Brennan, Hartmut Kliemt, Robert D. Tollison, 2013-03-09 This Festschrift was presented in electronic form to Buchanan on the occasion of his eightieth birthday on October 3 1999 after dinner in Fairfax Virginia As one might have expected the response to our call for papers was so luminous In looking over the many contributions we felt that a published Festschrift was also possible and fitting for the eightieth birthday of so prodigious and influential a scholar as Professor Buchanan To that end we have assembled the following volume In selecting the papers to be included here we have basically tried to choose those papers which in some way bear on Buchanan's contributions Perfectly good papers about issues not related to Buchanan's research agenda or not referring directly to Buchanan's work were not included Space constraints did not allow universal coverage so choices had to be made It should be stated clearly that these were our choices based on the criterion that the contribution be relevant to Buchanan's work Buchanan had nothing whatsoever to do with the selection of papers for this volume Once choices had been made we arranged the papers by subject matter ranging from various aspects of Buchanan's work in economics political science philosophy and related areas to some more personal recollections of Jim as a professor friend and colleague Including the latter material was also our decision and this probably represents a choice with which Jim would not have agreed We think however that the reader will find these pieces interesting and informative

Fides and Secularity Emilio Di Somma,2018-11-15 This book wishes to talk about two main topics the Canadian political philosopher Charles Taylor and faith Taylor in his philosophical arguments on religion and secularity has adopted what I call the great prejudice on religion and secularity the two belong to utterly different spheres of human mind and sociality In this prejudice faith is used as a synonym of religion or belief and is understood as something that does not belong to the sphere of secularity My argument contradicts precisely this common belief Is faith more of an anthropological attitude towards reality than a religious one Can we criticize Taylor s philosophy on these grounds To develop my argument I will attempt to develop a dialogue between continental and Anglo American philosophers and theologians in the hope of convincing the readers that we should change radically the way we discuss faith religion and secularism
