**Ecoop 2000--Object-Oriented Programming** Elisa Bertino, 2000-05-31 This book constitutes the refereed proceedings of the 14th European Conference on Object Oriented programming ECOOP 2000 held in Sophia Antipolis and Cannes France in June 2000 The book also contains a CD ROM providing digitized versions of all previous ECOOP conference proceedings and related indices The 20 revised full papers presented in the book together with 3 invited papers were carefully reviewed and selected from a total of 109 submissions The book is divided into topical sections on UML type theory object relations cooperation and distribution Java run time optimization and tools *Object-Oriented Technology: ECOOP 2000 Workshop Reader* Jacques Malenfant, Sabine Moisan, Ana Moreira, 2003-06-26 This book documents the satellite events run around the 14th European Conference on Object Oriented Programming ECOOP 2000 in Cannes and Sophia Antipolis in June 2000 The book presents 18 high quality value adding workshop reports one panel transcription and 15 posters All in all the book offers a comprehensive and thought provoking snapshot of the current research in object orientation The wealth of information provided spans the whole range of object technology ranging from theoretical and foundational issues to applications in various domains **Object-Oriented Technology: ECOOP 2000 Workshop Reader** Jacques Malenfant, Sabine Moisan, Ana Moreira, 2000-12-13 This book documents the satellite events run around the 14th European Conference on Object Oriented Programming ECOOP 2000 in Cannes and Sophia Antipolis in June 2000 The book presents 18 high quality value adding workshop reports one panel transcription and 15 posters All in all the book offers a comprehensive and thought provoking snapshot of the current research in object orientation The wealth of information provided spans the whole range of object technology ranging from theoretical and foundational issues to applications in various domains *ECOOP 2000 - Object-Oriented Programming* Elisa Bertino, 2003-06-26 Following a 13 year tradition of excellence the 14th ECOOP conference repeated the success of its predecessors This excellence is certainly due to the level of maturity that object oriented technology has reached which warrants its use as a key paradigm in any computerized system The principles of the object oriented paradigm and the features of systems languages tools and methodologies based on it are a source of research ideas and solutions to many in all areas of computer science ECOOP 2000 showed a thriving field characterized by success on the practical side and at the same time by continuous scientific growth Firmly established as a leading forum in the object oriented arena ECOOP 2000 received 109 high quality submissions After a thorough review process the program committee selected 20 papers which well reflect relevant trends in object oriented research object modeling type theory distribution and cooperation advanced tools programming languages The program committee consisting of 31 distinguished researchers in object orientation met in Milan Italy to select the papers for inclusion in the technical program of the conference ECOOP '87. European Conference on Object-Oriented Programming Jean Bezivin, Jean-Marie Hullot, Pierre Cointe, Henry

Lieberman,2007-03-06 In October 1983 an informal meeting was organized in Le Cap d Agde with the help of the BIGRE bulletin Sixty people turned out to hear more than ten presentations on object oriented programming More important was their unanimous demand for other more structured encounters So about one year later the Object group was created by AFCET A second workshop was organized in Brest and again one year later in Paris each time showing increased attendance and interest The success of these meetings and the fact that similar activities were taking place in other European countries especially Great Britain and Germany led to the idea of an annual European Conference providing a forum for theorists and practitioners interested in the object oriented programming paradigm It is impossible to acknowledge here all the people and organizations that welcomed with great enthusiasm the birth of the ECOOP conference and contributed to its organization More than a hundred submissions were received and the program committee had the unpleasant task of turning down many valuable contributions We hope however that the selection of papers for ECOOP 87 emphasizes the fundamental issues and problems of object oriented programming and will point toward interesting future research directions COP '14 ,2014

**ECOOP 2011--Object-Oriented Programming** Mira Mezini,2011-07-18 This book constitutes the refereed proceedings of the 25th European Conference on Object Oriented Programming ECOOP 2011 held in Lancaster UK in July 2011 The 26 revised full papers presented together with three keynote lectures were carefully reviewed and selected from a total of 100 submissions The papers cover topics such as empirical studies mining understanding recommending modularity modelling and refactoring aliasing and ownership as well as memory optimizations *ECOOP '87* ,1987 **Proceedings of the 1st Workshop on Programming Language Evolution (PLE'14)**. ,2014 **Proceedings of the Second International Workshop on Combined Object-Oriented Modelling and Programming Languages** ,2013 **Proceedings of the 9th International Workshop on Implementation, Compilation, Optimization of Object-Oriented Languages, Programs and Systems PLE**. ,2014 **Proceedings of the 5th International Workshop on Context-Oriented Programming**

Marianne Huchard,2013-07 ECOOP 13 European Conference on Object Oriented Programming Jul 01 2013 Jul 01 2013 Montpellier France You can view more information about this proceeding and all of ACM s other published conference proceedings from the ACM Digital Library <http://www.acm.org/dl> **ECOOP '99 - Object-Oriented Programming** Rachid Guerraoui,1999-06-02 My tailor is Object Oriented Most software systems that have been built recently are claimed to be Object Oriented Even older software systems that are still in commercial use have been upgraded with some OO avors The range of areas where OO can be viewed as a must have feature seems to be as large as the number of elds in computer science If we stick to one of the original views of OO that is to create cost e fective software solutions through modeling ph ical abstractions the application of OO to any eld of computer science does indeed make sense There are OO programming languages OO operating s tems OO databases OO speci cations OO methodologies etc So what does a conference on Object Oriented Programming really mean I honestly don t know What I do know is that since its creation in 1987 ECOOP has been

attracting a large number of contributions and ECOOP conferences have ended up with high quality technical programs featuring interesting mixtures of theory and practice. Among the 183 initial submissions to ECOOP 99, 20 papers were selected for inclusion in the technical program of the conference. Every paper was reviewed by three to five referees. The selection of papers was carried out during a 1-day program committee meeting at the Swiss Federal Institute of Technology in Lausanne. Papers were judged according to their originality, presentation quality and relevance to the conference topics.
