Economic and Social Effects of Multinational Enterprises in Export Processing Zones Centre on Transnational Corporations (United Nations),1988 One of the most remarkable structural changes which took place in the world economy in the 1970s and the first half of the 1980s is undoubtedly the growth of export processing zones EPZs in the developing countries and areas employment in these zones grew from around 50 000 in 1970 to over 1 3 million by 1986 Judging from the current plans for new EPZs in over a dozen countries and the expansion plans for existing zones it would seem that employment in EPZs could continue to grow rapidly in the next few years The phenomenon of EPZs and the role of multinational enterprises in them have been the subject of heated debate This monograph sheds light on the multinationals contribution to employment generation export earnings technology transfer and the development of linkages with the local economy These are measured against the initial cost of the incentive package for establishing and maintaining the zones Questions related to working conditions and labour relations are also highlighted The book confronts a number of widely held assumptions with the available facts and figures and points to the possible evolution of EPZs in the economies of newly industrializing countries It envisages the emergence of the export processing country and a more open and competitive approach to industrial development

Likosky,2018-01-18 Michael Likosky examines the continuities and discontinuities between colonial and present day high tech transnational legal orders His concern is specifically with the colonial characteristics of the legal order which underpins the global high tech economy He distinguishes the democratic and human rights rhetoric of this economy from a reality wherein the legal order is often used to reproduce colonial type relationships Just as in the colonial period the expansion of trans border commerce overlaps with
