government's intervention in the regulation production and distribution of food from the days of Cardenas to the recent privatization inspired by NAFTA Professor Ochoa argues that the real goals of the government's food subsidies were political driven by presidential desires to court urban labor Many of the agencies and policies were hastily set in place in response to short term political or economic crises Since the goals were not to alleviate poverty but to provide modest subsidies to urban consumers the policies did not eliminate destitution or malnutrition in the country Despite the minimal achievements of these interventionist policies the State Food Agency provided a symbol of the state's concern for the workers The elimination of the Agency in the 1990s prompted social protest and unrest Feeding Mexico is the first study to examine the creation of networks to deliver food products the relationship of these channels of distribution to the food crisis and the role of the state in trying to ameliorate the problem Based on exhaustive research of new archival material and richly documented with statistical tables this book exposes the dynamics and outcome of social policy in twentieth century Mexico *The Limits of State Autonomy* Nora Hamilton, 2014-07-14 In a historical treatment of Mexico beginning with the pre Revolutionary period and focusing on the administration of Lazaro Cardenas 1934 1940 Nora Hamilton explores the possibilities and limits of reform in a capitalist society Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Mexico* Don M. general comparative context Publisher **Mexico** Jaime Suchlicki, In this fascinating thousand year survey of America s controversial and rapidly changing neighbor a leading expert on Latin America explains how Mexico s present and future flow directly from its past Going well beyond analyses of recent crises Mexico is an engrossing pellucid introduction to the Indian civilization the harsh rule of the Spaniards social violence and revolution and the country s mercurial relationship with the United States up to the present Jaime Suchlicki indicates that Mexico s turbulent history contains recurring and often contradictory trends He convincingly describes how that history contributes to Mexico s current and arguably future difficulties With an engaging style that brings a colorful story to life the author provides sophisticated insights into the exciting historical development of America s increasingly important trading partner Mexico contains numerous rare photographs and offers an up to date perspective on Mexico of today and tomorrow including an assessment of the North American Free Trade Agreement NAFTA and its implications for the future of United States Mexican relations Upon its initial release Mexico was hailed by Mario Ojeda Gomez president of El Colegio de Mexico as provocative and current The writing is sharp and the ideas are clear and original Suchlicki has focused on important aspects of Mexico s history and has explained them with intelligence selecting what is really significant And Manuel Suarez Mier of the Technological Institute of Mexico ITAM writes that Suchlicki s book is objective and appreciative and will enable readers to better understand Mexico and its behavior This is a fascinating and timely book

Mexico's Community Forest Enterprises David Barton Bray, 2020-11-24 The road to sustainable forest management and stewardship has been debated for decades Some advocate for governmental control and oversight Some say that the only way to stem the tide of deforestation is to place as many tracts as possible under strict protection Caught in the middle of this debate forest inhabitants of the developing world struggle to balance the extraction of precarious livelihoods from forests while responding to increasing pressures from national governments international institutions and their own perceptions of environmental decline to protect biodiversity restore forests and mitigate climate change Mexico presents a unique case in which much of the nation s forests were placed as commons in the hands of communities who with state support and their own entrepreneurial vigor created community forest enterprises CFEs David Barton Bray who has spent more than thirty years engaged with and researching Mexican community forestry shows that this reform has transformed forest management in that country at a scale and level of maturity unmatched anywhere else in the world For decades Mexico has been conducting a de facto large scale experiment in the design of a national social ecological system SES focused on community forests What happens when you give subsistence communities rights over forests as well as training organizational support equipment and financial capital Do the communities destroy the forest in the name of economic development or do they manage them sustainably generating current income while maintaining intergenerational value as a resource for their children Bray shares the scientific and social evidence that can now begin to answer these questions This is an invaluable resource for students researchers and the interested public on the

future of global forest resilience and the possibilities for a good Anthropocene *The Sonoran Dynasty in Mexico* Jürgen Buchenau, 2023 Jürgen Buchenau tells the story of the Sonoran dynasty in the Mexican Revolution Between 1920 and 1934 the governments over which they ruled helped determine how far the revolution would go in implementing a nationalist and anticlerical constitution and they also created the political blueprint for postrevolutionary Mexico
