Decentralizing the State Kathleen O'Neill, 2005-06-06 This book first published in 2005 explores the location and

dynamics of power within the state focusing on a recent wave of decentralizing reforms that have swept across both developed and developing countries in recent years Variation in the timing of reform across countries only vaguely relates to the genesis of an international consensus pushed by big lenders and development banks or the reemergence of democracy in decentralizing countries The book develops a theory linking decentralization s adoption to the electoral concerns of political parties decentralization represents a desirable strategy for parties whose support at subnational levels appears more secure than their prospects in national elections It examines this argument against experiences in Bolivia Colombia Ecuador Peru and Venezuela and speculates on how recent political changes may affect decentralization s shape and extent in coming years

The International Political Economy of Transformation in Argentina, Brazil and Chile Since 1960 E.

Pang,2002-09-06 This book is about how the three most important countries in South America have responded to the challenges of globalization since the mid 1960s the first OPEC price hike the Third World debt crisis leading to the lost decade for the continent and finally bold but often ill planned neo liberal reforms of the 1990s Latin America will experience another cycle of structural changes in the coming decades as the reforms of the 1980s and 1990s failed to produce the desired effects social justice fair income distribution sustainable growth and consolidation of democracy

Decentralisation and Privatisation in

Education Joseph Zajda,2007-11-29 Decentralisation and Privatisation in Education explores the ambivalent and problematic relationship between the State privatisation and decentralisation in education globally Using a number of diverse paradigms ranging from critical theory to globalisation the authors by focusing on privatisation marketisation and decentralisation will attempt to examine critically both the reasons and outcomes of education reforms policy change and transformation and provide a more informed critique on the Western driven models of accountability quality and school effectiveness We want to demonstrate that claims of advantages in efficiency brought about by privatisation in education are not always supported empirically as proposed by proponents The book examines the overall interplay between privatisation decentralisation and

the role of the state The authors draw upon recent studies in the areas of decentralisation privatisation and the role of the state in education By referring to Bourdieu s call for critical policy analysts to engage in a critical sociology of their own contexts of practice and poststructuralist and postmodernist pedagogy this collection of book chapters demonstrate how central discourses surrounding the debate of privatisation decentralisation and the role of the state are formed in the contexts of dominant ideology power and culturally and historically derived perceptions and practices The authors discuss the newly constructed and re invented imperatives of privatisation decentralisation and marketisation and show how they may well be operating as an educational model of a new global master narrative playing a hegemonic role within the framework of economic political and cultural hybrids of globalization
