Rigorous and accessible, the authors demystify and enliven a crucial subject for geographical study. Underpinned by the themes of globalisation, uneven development and place, the text explores the diversity and vitality of contemporary economic geography. It balances coverage of traditional areas such as regional development and labour markets with insight into new and evolving topics like neoliberalism, consumption, creativity and alternative economic practices. *An Introduction to Economic Geography* is an essential textbook for undergraduate students taking courses in Economic Geography, Globalisation Studies and more broadly in Human Geography. It will also be of key interest to anyone in Planning, Business and Management Studies and Economics.

**Youth and the State in Hungary** Laszlo Kurti, 2002-07-20 *Youth and the State in Hungary* takes as its focus the nature of Hungary's youth movements over the last seventy years. In a detailed ethnographic study, Laszlo Kurti examines the lives of youth workers in the Csepel district of Budapest in the context of the wider political and economic transformations witnessed during the twentieth century. Kurti follows State-Youth relations from the inter-war capitalism that made peasants into workers through the post-war state socialism, Stalinism and after to the reintroduction of capitalism in 1990. This time frame allows an exploration of the transformations and dilemmas of youth, class, gender and ethnicity as they develop across time. In the course of this study, two main themes emerge: the reproduction of class in youth culture across shifting socio-economic conditions and the mobilisation of youth movements in resistance to the state. *Youth and the State in Hungary* challenges the orthodox equation of youth and resistance by arguing that youth mobilisation has in fact served the interests of the state. Nevertheless, there remains a genuine space for resistance and contestation in the reproduction of youth culture.
