Economic Policy And Household Welfare During Crisis And Adjustment In Tanzania:

Economic Policy and Household Welfare During Crisis and Adjustment in Tanzania Alexander H. Sarris, Roger Van Den Brink, 1993-09-01 Tanzania is now the fourth poorest country in the world Its economic development since independence in 1961 has been characterized by a series of internal and external shocks that have tested the resilience of the economy the stability of its institutions and the tolerance and inventiveness of its people This book presents information that will have profound implications for economic policy in Tanzania Questioning earlier reports and conclusions the authors reject official economic statistics as failing to give even a moderately accurate picture of economic developments This study outlines the structure of the Tanzanian economy and considers the impact of previous policies and current stabilization and adjustment measures on the poorer segments of the Tanzanian population

Farewell to Farms Deborah Fahy Bryceson, Vali Jamal, 2019-05-23 First published in 1997 this volume asks whether Africa's future is necessarily rooted in peasant agriculture The title of this book Farewell to Farms is deliberately intended to challenge the widely held view that Africa is the world's reserve for peasant farming African rural populations are themselves moving away from a reliance on agriculture De agrarianisation takes the form of urban migration as well as the expansion of non agricultural activities in rural areas providing new income sources occupations and social identities for rural dwellers Using recent continent wide case study evidence the authors assess the impact of de agrarianisation on household welfare business performance and national development Their findings which reveal new economic trajectories and social patterns emerging from a period of accelerated change call into question assumptions about Africa's future place in the world division of labour

Agricultural Marketing in Tropical Africa H. Laurens van der Laan, Tjalling Dijkstra, Aad van Tilburg, 2018-08-09 First

published in 1999 this volume explores how African agriculture has always had a strong appeal for the people of the Netherlands This is due to 1 a long established interest in tropical agriculture going back to the days when Indonesia was a Dutch colony 2 a broad based desire to help the Third World and 3 the view that Tropical Africa is highly dependent on agriculture As practical expertise in Africa and systematic research on African agriculture grew specialization became both possible and necessary This volume reflects the specialization in marketing which has been welcomed by economists geographers and scholars of agricultural marketing In addition to a general introductory chapter this book includes five contributions on staple food grains two on export crops two on cattle and one on horticulture Nine of the chapters are country specific covering Benin Burkina Faso Cameroon Cote d'Ivoire Ghana Kenya Sierra Leone Tanzania and Zambia

From Crisis to Growth in Africa Mats Lundahl, 2005-07-05 This book is concerned with the problem of achieving sustained economic growth in thirteen African countries Structural adjustments designed to remove imperfections have made it difficult for the market system to work optimally

Adjustment in Africa World Bank, 1994 This the second title in the World Bank Policy Research Reports the first was the headline making The East Asian Miracle discusses the economic situation in Africa as it has evolved over the past several decades To reverse the economic decline that began in the 1970s many sub Saharan African countries have undertaken efforts to restructure their economies This has included liberalizing trade deregulating markets and prices privatizing public enterprises and strengthening management of the financial and public sectors Implementation has been uneven in different countries and even those countries that have attempted major reforms have not achieved policies that are considered sound by international standards A key finding is that improving policies paid off in higher GDR and sectoral growth rates which are vital to reducing poverty but in countries where policies deteriorated economic performance worsened The report also shows that despite the importance of reforming economic policies countries need to invest more in human capital and infrastructure expand their institutional capacity and develop better governance

The Making of a Periphery Pekka Seppälä, Bertha Koda, 1998 What makes a periphery The south eastern corner of Tanzania is officially one of the poorest corners of the world and is always presented as a peripheral area This volume presents a lively discussion on the making of a periphery The contributors show the interaction between the perceptions of outsiders the views of local people and the actual development efforts The authors perceive development as a negotiated and contested field Culture is not considered a factor constraining development but is seen rather as an engine which due to the plurality of local and outsider cultures sets the parameters for the battle

Institutional Adjustment for Economic Growth Per Ronnas, Örjan Sjöberg, Maud Hemlin, 2019-05-23 First published in 1998 this volume focuses on the special category of countries popularly referred to as transition economies through an analysis of small and medium sized

enterprises SMEs and their role in Asian economies with a view to assessing whether they could or should provide a model for African countries The present volume explores the institutional peculiarities displayed by transition economies These are economies which are undergoing a comprehensive and fundamental societal transformation with a view to creating a utopian communist society within the frame of a centrally administered economy then a pluralistic society based on a market economy and the rule of law Much of the debate on the economic performance of African LCD s has focused on informal sector activities or on the imperative to achieve structural adjustment By highlighting instead the challenges facing two of the least successful among the African economies Ethiopia and Tanzania both of which share a socialist past this book moves beyond the above issues It argues that institutional adjustment is critical to the prospects for success in developing transition economies As such the book investigates the transaction costs environment within which small scale industrial activities are set By drawing extensively on the Asian experience predominantly China and Vietnam but also India and Taiwan it identifies sources of transaction costs by examining not only the transactional disadvantages of small scale production but also the past and present sources of institutional inefficiency

Changing the Rules Aili Mari Tripp,2023-04-28 *Changing the Rules The Politics of Liberalization and the Urban Informal Economy in Tanzania* provides a comprehensive examination of Tanzania s informal economy highlighting its critical role as both a survival mechanism and a force for political and economic change Amid the economic crises of the 1980s Tanzanians increasingly turned to informal activities to bridge the vast gap between formal wages and the cost of living This shift not only redefined economic participation but also challenged the statist and socialist frameworks that had dominated Tanzania s post independence policies The book explores how the informal economy reshaped dependencies strengthened grassroots initiatives and exerted pressure on the state to adapt through liberalization and reform The study delves into the socio political dynamics underlying this transformation from the emergence of new economic practices to the state s reluctant acknowledgment of these activities By documenting the interplay between everyday resistance and policy shifts the book reveals how informal economic strategies undermined restrictive state norms and forced significant institutional changes Through chapters that analyze household dynamics gendered economic roles and shifting state society relations the author presents a nuanced picture of how Tanzanians redefined survival and governance This book is essential for understanding how grassroots economic adaptations can drive systemic transformation in developing nations This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist

dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977 *Rural Livelihoods and Diversity in Developing Countries* Frank Ellis,2000-06-29 Rural families in developing countries make a living by engaging in diverse activities These range from farming to rural trade to migration to distant cities and even abroad This book explores the implications of rural livelihood diversity for key topics in development studies and for poverty reduction policies The livelihoods approach is gaining momentum and this is the first book to set it out in detail **The Political Economy of Tanzania** Michael F.

Lofchie,2014-01-16 Since gaining independence the United Republic of Tanzania has enjoyed relative stability More recently the nation transitioned peacefully from single party democracy and socialism to a multiparty political system with a market based economy But Tanzania s development strategies based on the leading economic ideas at the time of independence also opened the door for unscrupulous dealmaking among political elites and led to economic decline in the 1960s and 1970s that continues to be felt today Indeed the shift to a market oriented economy was motivated in part by the fiscal interests of government profiteers The Political Economy of Tanzania focuses on the nation s economic development from 1961 to the present considering the global and domestic factors that have shaped Tanzania s economic policies over time Michael F Lofchie presents a compelling analysis of the successes and failures of a country whose postcolonial history has been deeply influenced by high ranking members of the political elite who have used their power to advance their own economic interests The Political Economy of Tanzania offers crucial lessons for scholars and policy makers with a stake in Africa s future
