Proceedings of the High School Conference of ... , 1928 *Proceedings of the High School Conference of November 1910-November 1931* , 1929

Mechanisms and the Contingency of Social Causality Alexei Anisin, 2022-08-04 Mechanisms are frequently brought up across the natural and social sciences as supplements to laws and empirical regularities Recent decades have seen an explosion in mechanistic explanations in which philosophers of science natural scientists and social scientists have advocated debated and criticized the usage of mechanisms in their respective disciplines As the intensity of these debates has increased our understanding of the historical origin of mechanisms remains incomplete Of the explanations that have been put forward it has been argued that the roots of mechanisms are to be found in mechanical philosophy This book demonstrates that an important set of factors have been overlooked in our understanding of the ontology of mechanisms In shifting attention to a never before explored terrain in the etymological and semantic evolution of what arguably is the most commonly used scientific term the mechanism this text discovers that the origin of mechanisms is to be witnessed in ideas about social causality that arose within Ancient Greek tragedy and theater It takes readers on a journey through socio cultural settings and changes in Ancient Greece early Christianity the Roman Empire and the Middle Ages as well as the rise of science and modernity and finishes in our current era of digital technology As such the book reveals how understandings of mechanisms have changed and evolved across time

Invisible Men Becky Pettit, 2012-06-01 For African American men without a high school diploma being in prison or jail is more common than being employed a sobering reality that calls into question post Civil Rights era social gains Nearly 70 percent of young black men will be imprisoned at some point in their lives and poor black men with low levels of education make up a disproportionate share of incarcerated Americans In Invisible Men sociologist Becky Pettit demonstrates another vexing fact of mass incarceration most national surveys do not account for prison inmates a fact that results in a misrepresentation of U S political economic and social conditions in general and black progress in particular Invisible Men provides an eye opening examination of how mass incarceration has concealed decades of racial inequality Pettit marshals a wealth of evidence

correlating the explosion in prison growth with the disappearance of millions of black men into the American penal system She shows that because prison inmates are not included in most survey data statistics that seemed to indicate a narrowing black white racial gap on educational attainment work force participation and earnings instead fail to capture persistent racial economic and social disadvantage among African Americans Federal statistical agencies including the U S Census Bureau collect surprisingly little information about the incarcerated and inmates are not included in household samples in national surveys As a result these men are invisible to most mainstream social institutions lawmakers and nearly all social science research that isn't directly related to crime or criminal justice Since merely being counted poses such a challenge inmates lives including their family background the communities they come from or what happens to them after incarceration are even more rarely examined And since correctional budgets provide primarily for housing and monitoring inmates with little left over for job training or rehabilitation a large population of young men are not only invisible to society while in prison but also ill equipped to participate upon release Invisible Men provides a vital reality check for social researchers lawmakers and anyone who cares about racial equality The book shows that more than a half century after the first civil rights legislation the dismal fact of mass incarceration inflicts widespread and enduring damage by undermining the fair allocation of public resources and political representation by depriving the children of inmates of their parents economic and emotional participation and ultimately by concealing African American disadvantage from public view

Digital Demagogue Christian Fuchs, 2018-02-20 From Covfefe to FraudNewsCNN and FakeNews Donald Trump's tweets have caused an international frenzy He is a reality TV and Twitter President who uses digital and entertainment culture as an ideological weapon as an expression of his authoritarianism This book delves into new political economic structures as expressed through political communication to explain the rise of authoritarian capitalism nationalism and right wing ideology throughout the world Christian Fuchs does this through updating Marxist theory and the Frankfurt School's critical theory He reinvigorates the works on authoritarianism of Franz L Neumann Theodor W Adorno Erich Fromm Herbert Marcuse Max Horkheimer Wilhelm Reich Leo Lowenthal and Klaus Theweleit in the age of Trump and Twitter In the age of big data and social media Digital Demagogue studies the expressions of ideology nationalism and authoritarianism today and discusses prospects for overcoming capitalism and renewing the Left
