The Economics of Household Behavior Peter Kooreman, Sophia Wunderink, 1997-03-14 This new text focuses upon the growing interest in the economic behaviour of households and families and examines the microeconomic behaviour of household units and their place in the macroeconomic environment By combining a number of aspects of household behaviour the authors have produced a stimulating and innovative international text in this topical area **Household**

Economic Behaviors J. A. Molina, 2011-08-31 Significant recent changes in the structure and composition of households make the study of the economic relationships within the household of particular interest for academics and policy makers In this context Household Economic Behaviors through its focus on theoretical and empirical chapters on a range of economic behaviors within the household provides a new and timely viewpoint Following the Introduction and one or two surveys which give a general background the volume includes theoretical and empirical perspectives on allocation of available time within the household monetary and non monetary transfers between household members and intra household bargaining

Environmental Policy and Household Behaviour Patrik Soderholm, 2013-07-04 Our behaviour in our own homes our recycling habits consumer choices and transport preferences all have a huge impact on the environment locally and globally Governments across the world are trying to formulate and implement policies to encourage and enforce more sustainable household actions Yet so often these policies fail to have the desired effects because of a lack of understanding of the complex interplay of policy and individual behaviour This book examines this interplay looking at the role of values attitudes and constraints in the links between policy and changing behaviour at the household level The first part of the book explores the theoretical background looking at the politics of lifestyles and lifestyle change policy legitimacy and barriers and facilitators for pro environmental behaviour The second part is made up of in depth case studies from Sweden one of the fore running countries in this area examining three main types of household behaviour waste and recycling consumption and labelling and transportation choices Within these case studies the contributors examine what policy initiatives have and haven't worked and the role of values and constraints in those processes This is the first inter disciplinary in depth look at how environmental policy enters the private domestic sphere The theoretical insights and policy guidance the book offers will be vital in the drive to generate behaviour change at the household level and the move towards sustainable societies

Economics NEW TO THE THIRD EDITION Introduces a new Chapter 11 on Goods and Services Tax GST Incorporates updated data in the tables throughout including the newly revised tax slabs TARGET AUDIENCE Undergraduate and postgraduate students of Economics for a course in Public Finance Public Economics *Some Problems of Development Financing* M. Durdag, 2012-12-06 This study originally a Ph D thesis accepted in the University of Birmingham is intended to present a critical analysis of some important problems of development financing The boundaries of our subject matter will be defined as follows First of all the discussion will be confined to the problems of a particular country Turkey during a particular period of time the period of the First Five Year Development Plan of 1963-67 Secondly the problems to be discussed will be chosen from among those concerning the saving aspect of development financing It has now become a widely used method in the literature to assume a dichotomy between the saving and investing aspects of the process of development financing Thirdly even within the saving aspect of development financing no claim will be made to comprehensiveness Preference will be given to analyzing in depth a few main questions rather than touching upon everything concerning our subject The study begins with an introduction to the social and economic framework of Turkey in Chapter 1 in which emphasis is given to factors that bear upon the problems to be discussed in the following chapters

Cannabis and Childhood Development Danielle Dawson, Janni Leung, 2022-11-07 This book highlights empirical evidence on the impact of cannabis on childhood development from infancy up to young adulthood With the global movement of more relaxed policies and attitudes towards cannabis use it is important to understand the risks associated with cannabis on youth development Bridging the gap between knowledge communications and research literature this volume translates scientific evidence to highlight the consequences of cannabis exposure on young people's lives Based on academic research literature it summarizes and critically analyses a large body of scientific evidence to evaluate developmental outcomes from birth to young adulthood on physical social and mental health It will appeal to students and academics as well as policy makers psychologists medical professionals and epidemiologists in the broader academic community with an interest in the topic

Public Economics and the Household Patricia Apps, Ray Rees, 2009-03-05 Economic models in much of the public economics literature have been slow to reflect the significant changes towards double income households throughout the developed world This graduate level text develops a more sophisticated approach to household economics one that allows for multiple income earners and shared decision making This approach is used to present a fundamentally new view of consumption It then applies this to an analysis of tax systems combining theoretical analysis of optimal taxation and tax reform with careful empirical study of the characteristics of income tax systems in four different countries Australia Germany the UK and the USA The book is particularly concerned with analysing both theoretically and empirically the impact of taxation on female labour supply and identifying its effects on work incentives and fairness of income distribution All this adds up to a fascinating new approach to the economics of household for researchers in both public and private sectors Is

the Chinese Economy a Miracle or a Bubble? Lawrence J. Lau, 2024-04-23 An indispensable reference to the development of the Chinese economy past present and future DALE W JORGENSON Samuel W Morris University Professor Harvard University Since China undertook economic reform and opened its economy to the world in the late 1970s its economy has been growing at an average annual rate of over 9 percent for more than four decades No other economy in recorded history has grown at such a high rate and for such a long period as China has done The questions that naturally arise are Was the Chinese economy a miracle Or was it a mere bubble Will the Chinese economy begin to stagnate like the Japanese economy did in the 1990s and perhaps decline Will it be able to escape the middle income trap If it is not a miracle can the Chinese development experience be replicated elsewhere This book provides a comprehensive and detailed discussion of the remarkable growth of the Chinese economy over the past decades by scrutinising the sources of economic growth and evaluating the strategies adopted by the Chinese government to promote the transition from a centrally planned economy to a market based economy by means of the dual track approach It is argued that while the Chinese economy is unique and exceptional in many ways its development experience can be explained and attributed A comprehensive and detailed discussion of the remarkable growth of the Chinese economy at nearly double digit rates in the four decades since the reforms of Deng Xiaoping in 1978 This volume will be an indispensable reference to the development of the Chinese economy past present and future Dale W Jorgenson Samuel W Morris University Professor Harvard University Lawrence Lau s discussion and economic reasoning with regard to the economic development of China dispels the view that the Chinese economic development since the opening up in the late 1970s was bubble I found his reasoning fascinating and his arguments that other countries can replicate the Chinese experience to facilitate their own development sound and well reasoned This book will be read and discussed by scholars and practitioners interested in a better understanding of the road to economic development Myron Scholes Nobel Laureate in Economic Sciences 1997 Professor Emeritus Stanford University The essays in this book present a rich and informed analysis of China s long run economic development They provide a unique insight into the Chinese economy at a crucial point in the country s development The essays have deep analytical weight reflecting Lawrence Lau s outstanding contribution to economic thought and policy formation in China Peter Nolan Founding Director Centre of Development Studies University of Cambridge This is a great and well researched book As a distinguished scholar and renowned adviser to Chinese economic policymakers Professor Lawrence Lau utilizes extensive data and economic models to evaluate the various sources of growth since China s 1978 reforms from an innovative perspective The book juxtaposes China s experience with other East Asian economies offering unique and deep insights into its distinctive development path It s essential reading for politicians scholars business leaders investors students and anyone interested in understanding China better Junsen Zhang Dean and Distinguished University Professor School of Economics Zhejiang University Fellow of the Econometric Society Key Concepts in Feminist Theory and Research Christina
