Global Themes offers analysis of issues including the WTO trade agreements and economic development intellectual property rights security and environmental issues and PTAs and developing countries The second part examines regional and country specific agreements and issues including NAFTA CARICOM CETA the Pacific Alliance the European Union EFTA ECOWAS SADC TTIP RCEP and the TPP now the CPTPP as well as the policies of countries such as Japan and Australia Regional Economic Integration in East Asia Magdalena Suska,2024-11-08 This interdisciplinary book analyses the regional economic integration and its institutionalisation that has been pursued in East Asia since the late 1990s and its far reaching impact for the entire region and beyond It presents the specificity and evolution of East Asia s economic integration as well as its outcomes in the form of an impressive number of FTAs concluded by East Asian countries The book also addresses the region s institutionalised regionalism of the 21st century embodied by the recent establishment of two mega regional institutions for trade and investment facilitation Comprehensive and Progressive Agreement for Trans Pacific Partnership CPTPP and Regional Comprehensive Economic Partnership RCEP analysing their economic potential and impact on East Asian economies as well as on regions including Europe Additionally the book offers a comprehensive analysis of integration theories providing political and economic theories of integration and related conceptual discussions which may help understand the uniqueness of the East Asian model of integration The book will be useful for students and researchers in economics international relations and political science as well as government administrations and private businesses developing long term strategic plans towards the region of East Asia **East Asian Economic Integration** Ross P. International Institutions in Trade and Finance A. I. MacBean, P. N. Snowden, 2021-11-21 Originally published in 1981 this book provided an up to date and critical review of the recent history and current status of the main economic institutions affecting international trade and relations at the time The authors emphasise the economic effectiveness or otherwise of such bodies as GATT IMF EEC UNCTAD and the World Bank but take account of the political factors present in both the initial design and in the way that the institutions have developed In particular the book analyses the changed degree of dominance which the USA had been able to exert on the international community **Economic Development Through Regional Trade** K. Kimbugwe, N. Perkidis, M. Yeung, W. Kerr, 2012-02-14 Post colonial Africa is littered with regional trade agreements that amounted to little more than a photo opportunity for the leaders that signed them This book explores conventional explanations for past failures and posits a new theory rooted in the symbiotic relationship between authoritarian politics and crony capitalism **International Economics: A Heterodox Approach** Hendrik Van den Berg, 2014-12-18 Now in its third edition this textbook covers all of the standard topics taught in undergraduate International Economics courses However the book is unique in that it presents the key orthodox neoclassical models of international trade and investment whilst supplementing them with a variety of heterodox approaches This pluralist approach is intended to give economics students a more realistic understanding of the international economy than standard textbooks can provide
