Global Production Networks Neil M. Coe, Henry Wai-chung Yeung, 2015-04-30

Accelerating processes of economic globalization have fundamentally reshaped the organization of the global economy towards much greater integration and functional interdependence through cross border economic activity In this interconnected world system a new form of economic organization has emerged Global Production Networks GPNs This brings together a wide array of economic actors most notably capitalist firms state institutions labour unions consumers and non government organizations in the transnational production of economic value National and sub national economic development in this highly interdependent global economy can no longer be conceived of and understood within the distinct territorial boundaries of individual countries and regions Instead global production networks are organizational platforms through which actors in these different national or regional economies compete and cooperate for a larger share of the creation transformation and capture of value through transnational economic activity They are also vehicles for transferring the value captured between different places This book ultimately aims to develop a theory of global production networks that explains economic development in the interconnected global economy While primarily theoretical in nature it is well grounded in cutting edge empirical work in the parallel and highly impactful strands of social science literature on the changing organization of the global economy relating to global commodity chains GCC global value chains GVC and global production networks GPN

New Perspectives on Global Governance Michele Fratianni, Paolo Savona, 2017-09-08 On its 30th anniversary in 2004 responsibility for hosting the G8 Summit fell into the hands of an allegedly unilateralist America An America still reeling from the shock of the September 11th terrorist attacks the resulting economic recession bitter divisions with its NATO allies and disappointment with the United Nations Institutions over the 2003 Iraq war So why does America still need the G8 *New Perspectives on Global Governance* offers new insight into the role of the Group of Eight s major market democracies and challenges the assumption that the G8 is simply a forum for binding a unilateralist hegemonic America In contrast to seeing the G8 as a means of imposing an American world order this unique collection of new writings suggests that a now vulnerable America must rely on the G8 as a central instrument of foreign policy America needs the G8 to achieve its security economic and political interests in the world and to shape the twenty first central global order it so desperately wants

Monetary Policy in the New Normal Mr. Tamim Bayoumi, Mr. Giovanni Dell'Ariccia, Mr. Karl F Habermeier, Mr. Tommaso Mancini Griffoli, Mr. Fabian Valencia, 2014-04-04 The proposed SDN would take stock of the current debate on the shape that monetary policy should take after the crisis It revisits the pros and cons of expanding the objectives of monetary policy the merits of turning unconventional policies into conventional ones how to make monetary policy frameworks more resilient to the risk of being constrained by the zero lower bound going forward and the institutional challenges to preserve central bank independence with regards to monetary policy while allowing adequate government

oversight over central banks new responsibilities It will draw policy conclusions where consensus has been reached and highlight the areas where more work is needed to get more granular policy advice **Climate Change 2007 - Mitigation of Climate Change** Intergovernmental Panel on Climate Change,2007-11-12 The Climate Change 2007 volumes of the Fourth Assessment Report of the Intergovernmental Panel on Climate Change IPCC provide the most comprehensive and balanced assessment of climate change available This IPCC Working Group III volume provides a comprehensive state of the art and worldwide overview of scientific knowledge related to the mitigation of climate change It includes a detailed assessment of costs and potentials of mitigation technologies and practices implementation barriers and policy options for the sectors energy supply transport buildings industry agriculture forestry and waste management It links sustainable development policies with climate change practices This volume will again be the standard reference for all those concerned with climate change including students and researchers analysts and decision makers in governments and the private sector
