**The Economics and Politics of World Sugar Policies** Steven V. Marks, Keith Eugene Maskus, 1993 Examination of trade in one of the most important agricultural products

**Economics and Politics of World Sugar Policies** Stephen V. Marks, Keith E. Maskus, 2025-10-01 Around the world markets for producing and consuming sugar and related sweeteners are heavily distorted by trade barriers output controls price supports and government subsidies These policies have significant and identifiable impacts on the economic well being of different groups in various countries The net effect of these global distortions is to damage world welfare at the same time that the various national policies reduce economic well being in the countries that impose them Sugar policy is the perfect example of how the political imperatives of support for agricultural interests dominate considerations of national welfare or international relations The contributors provide rigorous analyses of world sugar markets and the distortions caused by policies in the major countries They employ several numerical modeling techniques to describe and assess the impacts of world sugar programs These calculations are buttressed by complementary discussions of the political and economic rationales underlying sugar protection and support The contributions to *The Economics and Politics of World Sugar Policies* combine survey evidence with new modeling results from econometric approaches and applied equilibrium simulations to provide new assessments of the current state of world sugar markets Several original results are presented that shed new light on the impacts of sugar protection This book should be of considerable interest to agricultural economists trade policy analysts and specialists in international relations and development economics It is highly relevant for understanding both the economics of agricultural protection and the politics of farm support

**Sugar: Refined Power in a Global Regime** B. Richardson, 2009-09-23 Sugar is a commonplace product with a complex background mainly because of the high degree of protectionism given to the industry and the benefits of ensuring domestic producers stay in business This book asks why there are such disagreements over trade policy who profits within the current regime and where power ultimately lies

Dixit,1998-09-01 The Making of Economic Policy begins by observing that most countries trade policies are so blatantly contrary to all the prescriptions of the economist that there is no way to understand this discrepancy except by delving into the politics The same is true for many other dimensions of economic policy Avinash Dixit looks for an improved understanding of the politics of economic policy making from a transaction cost perspective Such costs of planning implementing and monitoring an exchange have proved critical to explaining many phenomena in industrial organization Dixit discusses the variety of similar transaction costs encountered in the political process of making economic policy and how these costs affect the operation of different institutions and policies Dixit organizes a burgeoning body of research in political economy in this framework He uses U S fiscal policy and the General Agreement on Tariffs and Trade GATT as two examples that illustrate the framework and show how policy often deviates from the economist s ideal of efficiency The approach reveals however that some seemingly inefficient practices are quite creditable attempts to cope with transaction costs such as opportunism and asymmetric information Copublished with the Center for Economic Studies and the Ifo Institute      *The International Political Economy of U.S. Sugar Policy in the 1980's* Keith Eugene Maskus,1987      *The Impact of Trade and Domestic Policy Reforms in India* Rajesh Chadha,1998-12-15 A specially designed computable general equilibrium model is used to analyze the effects of recent policy reforms in the Indian economy      **Economic Controls and Commercial Policy in Cuba ...** United States Tariff Commission,1946
