Ecology In Jurgen Moltmanns Theology Texts And Studies In Religion Vol 75:

Biodiversity Conservation Ethics in Major Religions H. S. A. Yahya, 2010-10 Covering three broader issues biodiversity conservation religious doctrine and environment the book Biodiversity Conservation Ethics in Major Religions is the result of a unique approach It attempts to initiate scientific discourse through the fabric of religions Spread across 15 chapters the book covers the essence of 10 religions on biodiversity encompassing a wide range of issues related to conservation The book promises to be a useful resource for biodiversity students researchers and protected area managers and also for religious scholars who are invited to look at the broader themes of religions beyond theology Theology as Hope Ryan A. Neal, 2009-01-01 Hope is the leitmotiv of Jurgen Moltmann s theology Not merely one aspect of his project hope is the whole of it the supreme doctrine interpenetrating all others Indeed hope is his method The present study is both historical and developmental while also being analytical and interrogative This chronological exploration seeks to show the nature composition and development of Moltmann s doctrine of hope as the distinctive doctrine of his theology implicating all others Part I establishes Moltmann s doctrine of hope as grounded in God s faithfulness in the cross and resurrection Part II investigates major doctrines in his project in light of this ground This design seeks to take advantage of the chronological approach while also integrating the best elements of a topical approach Christianity and Ecology Dieter T. Hessel, Rosemary Radford Ruether, 2000 What can Christianity as a tradition contribute to the struggle to secure the future well being of the earth community This collaborative volume the third in the series on religions of the world and the environment announces that an ecological reformation an eco justice reorientation of Christian theology and ethics is prominent on the ecumenical agenda The authors explore problematic themes that contribute to ecological neglect or abuse and offer constructive insight into and responsive imperatives for ecologically just and socially responsible living

Leaning Into the Future Poul F. Guttesen, 2009-08-01 Leaning into the Future seeks to explore what it may mean to believe in the Kingship of God and wait for his Kingdom by considering the fundamental role the Kingdom of God plays in the theology of Jurgen Moltmann and in the book of Revelation Part one is devoted to how Moltmann understands The Kingdom of God as the fundamental symbol of hope for humanity and how he sees the presence of God s reign and kingdom in history as hidden and paradoxical Part two turns to the way the Book of Revelation uses royal and other political language in its portrait of the future and God s presence in history In this second part the book also seeks to explore how Moltmann and the Apocalypse may mutually inform each other how Moltmann may help us read this biblical book today and how it in turn may overcome some of the weaknesses in Moltmann s proposal Studies in Hebrew Language, Intertextuality, and Theology Mark F. Rooker, 2003 This work covers a series of studies on Scripture and its language It covers the historical nature of Hebrew and perspectives on the re use of themes and topics within the canon **Charles Hartshorne's Concept of God** S. Sia, 2013-03-14 Charles Hartshorne s considerable writings have been influential in contemporary religious and

philosophical thought Not only is he regarded as the leading living representative of process thought as well as a much respected interpreter of Whitehead but he has also established himself as an original and creative thinker in his own right The literature on his philosophy has been rapidly increasing His thought and influence have also been the subject of a number of conferences and gatherings of scholars One of Hartshorne's most notable contributions to contemporary philosophy and theology is his concept of God In his writings he has set out to formulate the idea of deity so as to preserve perhaps increase its religious value while yet avoiding the contradictions which seem inseparable from the idea as customarily defined The result of his efforts has been the development of the concept of a dipolar God insofar as contrasting metaphysical predicates e.g. relative absolute contingent necessary finite infinite and so on are affirmed as applicable to God although always in an eminent way Inasmuch as he has elaborated this concept in close dialogue with classical theism he also refers to it as neo-classical Because of the emphasis he places on the reality of change and becoming in his metaphysics which regards God as the chief exemplification of metaphysical principles the term process has likewise been used to describe his notion of God

Ecology in Jurgen Moltmann's Theology Celia E. Deane-Drummond,2016-09-01 This book offers a critical and constructive analysis of the contribution of Jurgen Moltmann to the field of ecotheology Moltmann is one of the foremost and influential contemporary theologians of our time but his specific contribution to ecotheology has received relatively scant attention in the secondary literature The author deals sensitively with the relevant scientific aspects necessary in order to develop an adequate theology of the natural world She also offers a careful and constructive analysis of the specific systematic theologies of creation humanity eschatology and Trinity that are woven into Moltmann's rich interpretation of the relationship between God and creation

A Critical Appraisal of the Origin and Nature of the Institution of the Monarchy in Israel in the

Light of Eric Voegelin's Theory of Symbolic Forms Caroline J. Nolan, 2003 This study uses Voegelin's Theory of Symbolic Forms as a framework from which to study the development of the monarchy in Israel in its move from compactness to differentiation The study offers an explanation of the contradictions that the ambivalence of the monarchy presents Old Testament scholars to date have not given due attention to Voegelin's theory of symbolic forms That is unfortunate because by going beyond the philological preoccupations of Scripture scholars Voegelin goes right to the heart of the meaning of texts Voegelin connects the Old Testament symbolism to human experience and shows that it is still relevant to the contemporary world This study is in keeping with the recent contemporary shift from historical criticism to narrative criticism in Biblical studies and its application to the biblical domain provides a new method and approach that should be of benefit not only to philosophers and biblical exegetes but also to theologians historians political scientists and scholars of ancient civilizations

Subject Guide to Books in Print, 1997 God After Darwin John F. Haught, 2018-05-04 In God After Darwin eminent theologian John F. Haught argues that the ongoing debate between Darwinian evolutionists and Christian apologists is fundamentally misdirected Both sides persist in focusing on an explanation of underlying design and order in the universe Haught suggests that what is lacking in both of these competing ideologies is the notion of novelty a necessary component of evolution and the essence of the unfolding of the divine mystery He argues that Darwin's disturbing picture of life instead of being hostile to religion as scientific skeptics and many believers have thought it to be actually provides a most fertile setting for mature reflection on the idea of God Solidly grounded in scholarship Haught's explanation of the relationship between theology and evolution is both accessible and engaging The second edition of God After Darwin features an entirely new chapter on the ongoing controversial debate between intelligent design and evolution including an assessment of Haught's experience as an expert witness in the landmark case of *Kitzmiller v Dover Area School District* on teaching evolution and intelligent design in schools **Books in Print**, 1981 **The Routledge Handbook of African Theology** Elias Kifon
