Economic Adjustment In Lowincome Countries Experience Under The Enhanced Structural Adjustment Facility Occasional Paper 106:

NBER Macroeconomics Annual 1999 Ben S. Bernanke, Julio Rotemberg, 2000 The goals of the annual NBER Macroeconomics Conference are to present extend and apply frontier work in macroeconomics and to stimulate work by macroeconomists in policy issues Each paper in the Annual is followed by comments and discussion The goals of the annual NBER Macroeconomics Conference are to present extend and apply frontier work in macroeconomics and to stimulate work by macroeconomists in policy issues Each paper in the Annual is followed by comments and discussion *IMF Macroeconomic Research on Low-Income Countries* International Monetary Fund, 2004-01-30 Summarizes the forward looking analytical work program on macroeconomic issues related to the Poverty Reduction Strategy Paper approach The program is evolving through a process that began with a technical workshop participants from low income countries donors academia and civil society drafted guidance on selected issues and identified priority research topics Partners policymakers and economic scholars are encouraged to share their perspectives and findings through respective team leaders whose e mail addresses are provided The publication also summarizes IMF analytical work and contains a bibliography of nearly 1 000 papers *The IMF Approach to Economic Stabilization* Mr. Michael Mussa, Mr. Miguel A. Savastano, 1999-07-01 This paper explains the IMF approach to economic stabilization It argues that a Fund supported program is a process comprising six broadly defined phases that evolves along a multiplicity of potential pathways The paper discusses the three pronged approach to stabilization at the core of all IMF supported programs stresses the iterative character of financial programming and explains the rationale for setting quantitative performance criteria for fiscal and monetary policy in IMF supported arrangements A main theme is that IMF supported programs contain a great deal of flexibility to respond both to differences in circumstances and to changes in conditions in individual cases Adjustment and Poverty Frances Stewart, 2005-08-04 The last decade has brought sharp adjustments and rising poverty to much of the developing world The experiences of Africa and Latin America are contrasted with areas which were able to combine adjustment with protecting the poor *IMF Staff papers, Volume 43 No. 3* International Monetary Fund. Research Dept., 1996-01-01 This paper examines the volatility and predictability of emerging stock markets A range of measures suggests that despite perceptions to the contrary the volatility of emerging markets may have fallen rather than risen on average Also although the autocorrelations in emerging market returns appear to turn negative at horizons of a year or more the magnitude of these return reversals is not that much larger than reversals in some mature markets One interpretation of the results would be that emerging markets have not consistently been subject to fads or bubbles or at least no more so than in some industrial countries **The Oxfam Poverty Report** Kevin Watkins, 1995 Fifty years ago the United Nations Charter proclaimed universal rights to shared prosperity peace and security How far has that vision of world citizenship been realised Despite advances in human welfare and

technology there is today a growing polarisation between rich and poor One in four of the world's people live in absolute poverty unable to meet their basic needs armed conflict is affecting millions of people and the global environment is under threat Yet there is a failure of political will to address the silent emergency of poverty The Oxfam Poverty Report draws on Oxfam's experience of working in over 70 countries to examine the causes of poverty and conflict It identifies the structural forces which deny people their basic rights and gives a wide range of examples of the ways in which men and women are bringing about positive change at every level from the household to the international arena Oxfam believes that it is time to renew the UN vision of universal basic rights The Report concludes by proposing policy and institutional reforms which would transform international institutions and trading relations and calls for a new commitment to work together to eradicate poverty and bring sustainable peace and security for all the world's people

Research Activities of the IMF, January 1991-December 1999 International Monetary Fund, 2000-01-01 Research activity in the IMF emphasizes the links between the organization's policy and operational concerns The main objectives of research is IMF staff understanding of policy and operational issues relevant to the institution and to improve the analytical quality of the work prepared for management and the Executive Board and the advice provided to member countries The scope of research in the IMF is defined by the purposes and functions of the institution In order to foster innovation and ensure quality control the IMF makes much of its research available outside the institution and encourages staff to interact with academia and other research organizations through conferences seminars and occasional joint research projects The visiting scholar's program has also enhanced the quality of research done in the IMF This program brings in leading members of the economics profession from around the world to assist in the preparation of papers for the Executive Board and to conduct research on IMF related issues

Economic Adjustment and Reform in Low-Income Countries (ESAF Review Background Papers) Hugh Bredenkamp, Susan Schadler, 1999-06-30 The Enhanced Structural Adjustment Facility ESAF is the centerpiece of the International Monetary Fund's strategy to provide assistance on concessional terms to low income member countries that are undertaking important macroeconomic adjustment and structural reforms By February 1999 a total of SDR 7 billion about US 9 billion had been distributed under 79 ESAF arrangements to 51 developing countries Edited by Hugh Bredenkamp and Susan Schadler this volume features internal IMF staff assessments of the ESAF and provides an historical account of policies implemented and outcomes achieved under ESAF supported programs

The Economic Impact of IMF-Supported Programs in Low-Income Countries Yasemin Bal-Gunduz, Mr. Christian Ebeke, Ms. Burcu Hacibedel, Ms. Linda Kaltani, Ms. Vera V Kehayova, Mr. Chris Lane, Mr. Christian Mumssen, Miss Nkunde Mwase, Mr. Joseph Thornton, 2013-10-04 This paper aims to assess the economic impact of the IMF's support through its facilities for low income countries It relies on two complementary econometric analyses the first investigates the longer term impact of IMF engagement primarily through successive medium term programs under the Extended Credit Facility and its predecessors and more recently the Policy

Support Instrument on economic growth and a range of other indicators and socioeconomic outcomes the second focuses on the role of IMF shock related financing through augmentations of Extended Credit Facility arrangements and short term and emergency financing instruments on short term macroeconomic performance *IMF Programmes in Developing Countries* Tony Killick, 2003-09-02 The International Monetary Fund is the centre of a global financial system that encourages budgetary discipline and full integration into world trade to facilitate development and alleviate poverty Yet this policy conditionality of the IMF is highly controversial Critics state that fifty years of IMF existence has been fifty years too long and that its doctrinaire policy must change or Fund programmes will have only limited ability to achieve their objectives This book examines the arguments tracing the extent of Fund adaptation presenting major new evidence on the consequences of Fund programmes and considering its future role
