Economic Freedom Toward A Theory Of Measurement Proceedings Of An International Symposium:

Economic Freedom James C. W. Ahikpor, Fraser Institute (Vancouver, B.C.), 1991 Proceedings of an International Symposium on Measuring Economic Freedom held July 28 30 1988 in Vancouver British Columbia T p verso Includes bibliographical references p 174 175 **Economic Freedom [computer File] : Toward a Theory of Measurement** Fraser Institute (Vancouver, B.C.), 1999 Handbook of Research on Economic Freedom Niclas Berggren, 2024-04-12 This seminal Handbook provides a comprehensive overview of contemporary research on economic freedom using multidisciplinary methods to assess studies of the determinants and consequences of market oriented institutions and policies Niclas Berggren brings together world leading experts in their respective fields to explore the notion of economic freedom in the history of economic thought to present measures of economic freedom and to provide overviews of the latest empirical research *Une économie plus dynamique dans un Canada fort et prospère* Mike Harris, Preston Manning, Fraser Institute (Vancouver, B.C.), Institut économique de Montréal, 2006 Des d pensees publiques et une imposition excessives restreignent la libert conomique des individus et des entreprises en r duisant leur revenu et en transf rant le pouvoir de prise de d cisions conomiques dans les mains de politiciens et de fonctionnaires International Bibliography of Economics British Library of Political and Economic Science, 1993 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences **Ideologies in World Politics** Klaus-Gerd Giesen, 2020-09-02 Political ideologies shape the behaviour of states international institutions terrorist groups political elites non governmental organisations and other international actors The book analyses how the most important of them affect today s world politics and contribute to build a new and complex world order **Index of Economic Articles in Journals and Collective Volumes** American Economic Association, 1991 **Canadian Tax Journal** , 1991 **The Myth of the Good Corporate Citizen** Murray Dobbin, 2003-04 This book is a classic for anyone who wants to understand the forces of globalization and their impact on the economy on politics and on social life with a Canadian orientation **Competition in World Politics** Daniela Russ, James Stafford, 2021-06-09 The return of great power competition between among others the US China Russia and the EU is a major topic in contemporary public debate But why do we think of world politics in terms of competition Which information and which rules enable states and other actors in world politics to compete with one another Which competitive strategies do they pursue in the complex environment of modern world politics This cutting edge edited collection discusses these questions from a unique interdisciplinary perspective It offers a fresh account of competition in world politics looking beyond its military dimensions to questions of economics technology and prestige **Neoliberalism and Race** Lars Cornelissen, 2025-10-14 Lars Cornelissen argues that the category of race constitutes an organizing principle of neoliberal ideology Using the methods of intellectual history and drawing on insights from critical race studies Cornelissen explores the

various racial constructs that structure neoliberal ideology some of which are explicit while others are more coded Beginning in the interwar period and running through to recent developments Neoliberalism and Race shows that racial themes have always pervaded neoliberal thinking The book s key argument is that neoliberal thought is constitutively racialized its racial motifs cannot be extracted from neoliberalism without rendering it theoretically and politically incoherent The book aptly explores a wide variety of racial constructs through the structure of neoliberal ideology deconstructing the conceptualizations in the works of landmark thinkers such as Ludwig von Mises Friedrich Hayek Peter Bauer Thomas Sowell Charles Murray and others from the early twentieth century to the present In this original perhaps controversial critique Cornelissen asserts that neoliberal thinkers were not just the passive recipients of racial discourse but also directly impacted it

The Cumulative Book Index ,1992 A world list of books in the English language **International Contracts and National Economic Regulation:Dispute Resolution Through International Commercial Arbitration** Mahmood Bagheri,2000-12-06 The growth of national economic regulation and the process of globalisation increasingly expose international transactions to an array of regulations from different jurisdictions These developments often contribute to widespread international contractual failures when parties claim the incompatibility of their contractual obligations with regulatory laws The author challenges conventional means of dispute resolution and argues for an interdisciplinary approach whereby disciplines such as international economic law conflict of laws contract law and economic regulations are functionally united to resolve international and multifaceted regulatory disputes He identifies the normative foundation of contract law as an important determinant in this process contending that contract law is essentially neutral and underpinned by the concept of corrective justice while economic regulations are mainly prompted by distributive justice Applying this corrective distributive justice dichotomy to international contracts the author critically assesses major conflict of laws approaches such as proper law the Rome Convention and governmental interest analysis which could disregard either public interest or private rights The author taking these theories into account proposes an alternative two dimensional interest analysis approach He tests the viability of this approach with reference to arbitral awards and court decisions in various jurisdictions and concludes that it uniquely fits into the structure of international commercial arbitration In adopting this approach arbitrators would take into account both corrective and distributive justice and to the extent that corrective justice prevails would be able to avert a total failure of the contract *Rating Global Economic Freedom* Fraser Institute (Vancouver, B.C.),1992
