Economic Interdependence in Ukrainian-Russian Relations Paul J. D'Anieri, 1999-07-23 Explores the emerging political economy of the former Soviet Union **Economic Interdependence in Ukrainian-Russian Relations** Paul J.

D'Anieri, 1999-07-01 Explores the emerging political economy of the former Soviet Union The Perils and Promise of Global Transparency Kristin M. Lord, 2012-02-01 While the trend toward greater transparency will bring many benefits Kristin M Lord argues that predictions that it will lead inevitably to peace understanding and democracy are wrong The conventional view is of authoritarian governments losing control over information thanks to technology the media and international organizations but there is a darker side one in which some of the same forces spread hatred conflict and lies In this book Lord discusses the complex implications of growing transparency paying particular attention to the circumstances under which transparency's effects are negative Case studies of the 1994 genocide in Rwanda and the government of Singapore's successful control of information are included Political Identity and Social Change Jamie Frueh, 2003-01-01 Explores issues of political identity and the social changes that ended apartheid in South Africa **Why Movements Matter** Steve Breyman, 2001-07-12 Why Movements Matter is a provocative account of how the Reagan administration relented to pressures created by international peace movements during one of the most dangerous episodes of the Cold War Breyman provides the first systematic account of the West German anti missile movement among the most important citizen mobilizations of postwar Western history Contrary to conventional wisdom Breyman offers compelling evidence that peace movements rather than any escalation of Cold War spending or rhetorical belligerence hastened the demise of the Cold War The product of extensive research Why Movements Matter advances social movement theory and the political sociology of peace movements expands our understanding of the interaction of political parties and political movements explores the links between public opinion and organized dissent and provides an assessment of a movement whose immediate impact shook the halls of power in Washington and Moscow yet also had a deep and lasting influence on politics culture and society

Beyond Boundaries? Rudra Sil, Eileen M. Doherty, 2000-06-08 This book represents a critical yet constructive reappraisal of the role and the limits of the boundaries that define and separate disciplines and subfields in the social sciences as well as the boundaries that divide distinct research traditions or paradigms in the analysis of international life It provides an integrative and eclectic examination of the virtues of a more flexible division of labor a division that facilitates more meaningful communication among scholars of different methodological persuasions investigating similar problems in international life Part One addresses concrete issues in international studies ranging from international bargaining and interdependence to conceptions of collective identity The essays therein serve as creative models for integrating concepts and analytic logics from different theoretical frameworks rooted in different disciplines Part Two shifts the focus to more wide ranging questions in the philosophy of the social sciences and the organization of social science research in order to

shed new light on the value and validity of boundaries currently drawn between different schools sects disciplines and subfields Contributors include Tadashi Anno Jean Marc F Blanchard Anne L Clunan Eileen M Doherty Wade L Huntley Timothy W Luke Norrin M Ripsman and Rudra Sil *Globalization, Security, and the Nation State* Ersel Aydinli, James N. Rosenau, 2012-02-01 This volume studies the links among the concepts of globalization security and the authority of the nation state drawing attention to why and how these three concepts are interrelated and why they should be studied together Contributors explore the connections between security and global transformations and the corresponding or resulting changes in state structures that emerge Probing and extending existing paradigms the book offers three regional cases studies the periphery states of the Middle East and North Africa the second world states of the Russian Federation and the core states of the European Union It concludes with three chapters that synthesize the above themes to identify corresponding changes in the patterns of international politics **When Leaders Learn and When They Don't** Akan Malici, 2009-01-01 When Leaders Learn and When They Don't investigates two extraordinary leaders Mikhail Gorbachev and Kim Il Sung by employing sophisticated methodologies and advancing a new theory of foreign policy decision making Both leaders redefined the theory and practice of international relations and left a heritage that we face today a unipolar world in which security threats no longer emanate from the rivalry of two superpowers but rather from the existence of rogue states such as North Korea Akan Malici demonstrates how Gorbachev moved the antagonistic superpower relationship toward a Kantian world of friends while Kim reified a Hobbesian world of enemies at the end of the Cold War The book carries implications about declining and newly emerging threats as the configuration of the international system changes **Who Gets What?** Aslaug Asgeirsdottir, 2009-07-01 Examines the domestic constraints negotiators operate under when nations seek to cooperate The Arab-Israeli Conflict Transformed Hemda Ben-Yehuda, Shmuel Sandler, 2012-02-01 The Middle East conflict be it between the state of Israel and Arab states or between Jews and Palestinians is a staple of international news Utilizing both theoretical approaches and empirical evidence Hemda Ben Yehuda and Shmuel Sandler argue that despite the recent upswing in violence particularly over the Palestinian issue conflict has gradually been giving way since the 1970s to a more orderly regime of conflict management By integrating ethnonational theoretical literature into their analysis the authors move beyond the current International Relations debate over the relative merits of realist neo realist approaches versus neo liberal institutional approaches Ethnic state disputes are the primary source for failing to terminate the Arab Israeli conflict
