The End of Mandatory Retirement United States. Congress. House. Select Committee on Aging, 1983 *Liberal Economics and Democracy* Conrad Waligorski, 1997 Waligorski shows why there is such resilience and viability to this brand of liberalism The chapter on Keynes is as good a short piece on the economist as can be found anywhere Kenneth M Dolbeare author of *American Political Thought* A coherent and insightful book by a sagacious thinker Charles E Lindblom author of *Politics and Markets* The Handbook of Language and Globalization Nikolas Coupland, 2012-09-17 The Handbook of Language and Globalization brings together important new studies of language and discourse in the global era consolidating a vibrant new field of sociolinguistic research The first volume to assemble leading scholarship in this rapidly developing field Features new contributions from 36 internationally known scholars bringing together key research in the field and establishing a benchmark for future research Comprehensive coverage is divided into four sections global multilingualism world languages and language systems global discourse in key domains and genres language values and markets under globalization and language distance and identities Covers an impressive breadth of topics including tourism language teaching social networking terrorism and religion among many others Winner of the British Association for Applied

Linguistics book prize 2011

Social Capitalism in Theory and Practice: Prosperity in a stable world Robert

Corfe, 2008 The reform of the financial industrial infrastructure cannot be undertaken without considering fully the political culture in which it exists But such reforms can only best be initiated from within the capitalist system itself by those most technically competent to effect necessary change and hence this book calls upon the business community to take such an initiative Whilst the first volume of this work traced the development of the new majority and its potential readiness to promote desired change and whilst the second volume laid out the theoretical basis for Social Capitalism and a new political consciousness the third and final volume is concerned with the policies and practicalities of a Social Capitalist world Part I of the present volume is concerned with the international dimension and especially the Third world and the need for its internal capitalisation and redefining the benefits of free trade and the priority of environmental questions Parts II and III are concerned with strategies for national prosperity on the macro economic level in advanced industrial economies and Part IV considers the reforms of the business enterprise in successfully integrating the common aims of employers and employed Part V is an exercise in the critique of Rentier capitalism comprising an expos of 43 leaders of major corporations and Part VI concludes the work with a summary and analytical declaration of Social Capitalist values and aims As this book clearly demonstrates a free and democratic world cannot be achieved or maintained without the successful establishment of a Social Capitalist society which seeks to maximise the individual ownership and control of the means of production distribution and exchange Under different pseudonyms Robert Corfe is also the author of 3 autobiographical works Death In Riyadh Geoff Carter describing his life as a businessman in the Middle East in the 80s My Conflict With A Soviet Spy Eddie Miller relating his adventures in Finland in the mid 60s and The Girl From East Berlin James Furner an epic novel relating his love affair in the old German capital at the end of the 50s
