

NEEDS FOR PLANNING IN UNDERDEVELOPED COUNTRIES

- Principal objectives of planning in underdeveloped countries is **to increase the rate of economic development.**
- D.R.Gadgil, "Planning for economic development implies external direction or regulation of economic activity by the planning authority which is in most cases, identified with the government of the state."
- It means increasing the rate of capital formation by raising the levels saving and investment. But increasing the rate of capital nation in underdeveloped economies is be set with a number of difficulties. People are poverty-ridden

and Budgeting in Poor Countries Naomi Caiden, Aaron B. Wildavsky, 1980-01-01 This substantial treatment of budgeting in poor countries and discussion of the relationship between planning and budgeting covers over eighty nations and three fourths of the world's population. While there are many treatments of planning, the approach of this study is radically different. The authors argue that the requisites of comprehensive economic planning do not exist in poor countries and that in the effort to create them, planners merge into the environment they have set out to change. Caiden and Wildavsky provide a unique and thorough examination of planning and budgeting by governments of poor countries throughout the world and recommend reforms that are workable and realistic for these countries. They analyze the political, economic, and social developments that influence budgeting and planning in developing countries. International Investment Jeswald W. Salacuse, 2013-02-14 There are three legal frameworks applicable to international investments: the laws of the host state, the investor's country, and the contract between the host state and the investor, and the rules of international investment law. This book assesses how these three bodies of law interact in investment agreements and dispute arbitration. The Soviet Model and Underdeveloped Countries Charles K. Wilber, 2018-06-15 This book constructs the model of economic development implicit in the historical experience of the Soviet Union and the agricultural, industrial, and social strategies followed are shown to fit into a logical and coherent pattern. Those strategies are then evaluated for the positive and negative answers they hold for underdeveloped countries today. Originally published 1969. A UNC Press Enduring Edition. Less Developed Countries W. Guth, 2013-03-09 There is little need today for an author publishing a work on less developed countries to emphasise the importance of this question. In view of the large and increasing number of publications on this subject and in fairness to the reader, it seems appropriate, however, to outline briefly what the book sets out to describe. As the title conveys, I have concentrated on the financial side of the problem without neglecting altogether the important political, social, and human aspects. I have primarily dealt with the problems of capital formation, capital transfer, capital employment, and the associated balance of payments considerations. The attempt is made to set out in an integrated analysis the problems of capital exports to less developed countries, both from the point of view of the creditor and of the debtor, be they countries

or individuals This method appeared all the more appropriate since the provision of long term funds for capital exports and the question of their employment in the capital importing countries are so closely interconnected that they could hardly be treated separately **External Research List** ,1959 **Liberalization in the Process of Economic Development**

Lawrence B. Krause, Kim Kihwan, 2023-11-15 Economic growth in all developing countries is guided and often accelerated by generally intrusive policies implemented by governments intent on playing an active role in furthering development As economies have grown and become more complex however even small market distortions are magnified and the tendency is to rely more heavily on the market for continued growth In this volume leading experts in economic development examine the variety of issues that arise as governments in some of the newly industrializing countries of Southeast Asia such as South Korea Taiwan and Singapore grapple with this difficult process of liberalization This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1991

From Classical Economics to Development Economics G. Meier, 1994-05-15 Most development economists are versed only in the post World War II period of their subject But economic growth was a major concern in the 18th century and colonial economics and policy commanded much attention in the 19th and first half of the 20th centuries A return to these earlier concerns can now provide present day development economists with a greater appreciation of the intellectual history of their subject Even more such a return might strengthen the conceptual and empirical foundations of the subject These are this book's objectives **External Research** United States.
