Durlauf,2005-12-21 Featuring survey articles by leading economists working on growth theory this two volume set covers theories of economic growth the empirics of economic growth and growth policies and mechanisms It also covers technology trade and geography and growth and socio economic development

*The More Economic Approach to EU Antitrust Law* Anne C Witt,2016-11-17 In the late 1990s the European Commission embarked on a long process of introducing a more economic approach to EU Antitrust law One by one it reviewed its approach to all three pillars of EU Antitrust Law starting with Article 101 TFEU moving on to EU merger control and concluding the process with Article 102 TFEU Its aim was to make EU antitrust law more compatible with contemporary economic thinking On the basis of an extensive empirical analysis of the Commission s main enforcement tools this book establishes the changes that the more economic approach has made to the Commission s enforcement practice over the past fifteen years It demonstrates that the more economic approach not only introduced modern economic assessment tools to the Commission s analyses but fundamentally changed the Commission s interpretation of the law Emulating one of the key credos of the US Antitrust Revolution thirty years earlier the Commission reinterpreted the EU antitrust rules as aiming at the enhancement of economic consumer welfare only and amended its understanding of key legal concepts accordingly This book argues that the Commission s new understanding of the law has many benefits Its key principles are logical translate well into workable legal concepts and promise a great degree of accuracy However it also has a number of serious drawbacks as it stands Most worryingly its revised interpretation of the law is to large extents incompatible with the case law of the European Court of Justice which has not been swayed by the exclusive consumer welfare aim This situation is undesirable from the point of view of legal certainty and the rule of law

**Growth and Development in the Global Political Economy** Phillip O'Hara,2004-03 This intriguing book uses a social structures of accumulation approach to address the big questions in political economy and will be of interest to historians political economists and macroeconomists

**Principles of Institutional and Evolutionary Political Economy** Phillip Anthony O'Hara,2022-08-29 This is the very first book to explicitly both detail the core general principles of institutional and evolutionary political economy and also apply the principles to current world problems such as the coronavirus crisis climate change corruption AI Robotics policy governance money and financial instability terrorism AIDS HIV and the nurturance gap No other book has ever detailed explicitly such core principles and concepts nor ever applied them explicitly to numerous current major problems The core general principles and concepts in this book which are outlined and detailed include historical specificity hegemony circular heterogeneous groups contradiction uncertainty innovation and policy as well as a Presidential address to the Association for

Evolutionary Economics AFEE on corruption The structure of the book starts with two chapters on the principles of institutional and evolutionary political economy firstly their history and secondly a chapter on the contemporary nature of the principles and concepts This is followed by nine chapters applying some of the core principles to current world problems such as the coronacrisis climate change corruption AI robotics policy money financial instability terrorism HIV AIDS and the nurturance gap The book finishes with a conclusion a glossary of major terms and an index The author s principles are well established in the literature and this book provides a detailed exposition of them and their application Interurban Road Charging for Trucks in Europe Jose Viegas,2005-01-19 Charging for the use of transport infrastructure has very different traditions in the various modes reflecting the different nature of their infrastructure nodal vs linear but also different historical traditions of open access system integration etc Since the early 90 s various European Commission initiatives took on this issue looking mainly at the road sector where many countries had no direct access charges Heavy goods vehicles were systematically identified as the primary targets for a renewed approach to this problem What seemed an easy catch has proved to be much harder with the various countries adopting almost exclusively national approaches and the European institutions unable to drive the process This book looks at the challenges posed by this objective recognising that there are multiple objectives for application of road tolls and charges and discussing the various possible solutions in the technical institutional and legal dimensions The multiplicity of national situations in Europe is put in perspective the impacts of various charging schemes on regional development and on the environment are estimated and the recent policy process is analysed allowing a global view of the remaining difficulties and to make recommendations about the next steps in the process

**The World Bank Research Observer** ,2004 *The Political Economy of Corporation Tax* John Snape,2011-12-09

Excellent technical writing on corporation tax abounds but it tends to be inaccessible to public lawyers political theorists and political economists Although recent years have seen not only an explosion in public law scholarship but also a reawakening of interest in interpretative political theory and political economy the potential of these perspectives to illuminate the corporation tax debate has remained unexplored In this important work John Snape seeks to reconcile these disparate strands of scholarship and to contribute to a new way of understanding and conceptualising the reform of the law relating to corporate taxation Drawing on important developments in public law scholarship the study combines elements of political theory and political economy It advances a new interpretation of corporation tax law as an instrument of rule through the maximisation of a nation s economic potential Snape shows how corporate taxation belongs at the centre of any discussion of economic globalisation not only because of the potential of national tax systems to influence inward investment decisions but also because of the potential of those decisions to shape the public interest that those tax systems might embody Following public law and politics models the book looks afresh at the impact of Britain s political institutions of the processes of its representative government and of the theory that moulds and orders the values that the corporation tax code contains This is

a timely exploration of cutting edge issues of public policy      **Agrekon** ,2004      *The Economic Geography of Cross-Border Migration* Karima Kourtiti, Bruce Newbold, Peter Nijkamp, Mark Partridge, 2020-12-07 This handbook presents a collection of high quality authoritative scientific contributions on cross border migration written by a carefully selected group of recognized migration experts from around the globe In recent years cross border migration has become an important and intriguing issue from both a scientific and policy perspective In the age of migration the volume of cross border movements of people continues to rise while the nature of migration flows in terms of the determinants length of stay effects on the sending and host countries and legal status of migrants is changing dramatically Based on a detailed economic geographical analysis this handbook studies the motives for cross border migration the socio economic implications for sending countries and regions the locational choice determinants for cross border migrants and the manifold economic geographic consequences for host countries and regions Given the complexity of migration decisions and their local or regional impacts a systematic typology of migrants motives legal status level of education gender age singles or families etc is provided together with an assessment of push factors in the place of origin and pull factors at the destination On the basis of a solid analytical framework and reliable empirical evidence it examines the impacts of emigration for sending areas and of immigration for receiving areas and provides a comprehensive discussion of the policy dimensions of cross border migration      **The SAGE Handbook of Environment and Society** Jules Pretty, Andy Ball, Ted Benton, Julia Guivant, David R Lee, David Orr, Max Pfeffer, Professor Hugh Ward, 2007-10-30 A monumental and timely contribution to scholarship on society and environments The handbook makes it easy and compelling for anyone to learn about that scholarship in its full manifestations and as represented by some of the most highly respected researchers and thinkers in the English speaking world It is wide reaching in scope and far reaching in its implications for public and private action a definite must for serious researchers and their libraries Bonnie J McCay Rutgers University This is the desert island book for anyone interested in the relationship between society and the environment The editors have assembled a masterful collection of contributions on every conceivable dimension of environmental thinking in the social sciences and humanities No library should be without it Robyn Eckersley University of Melbourne The SAGE Handbook of Environment and Society focuses on the interactions between people societies and economies and the state of nature and the environment Editorially integrated but written from multi disciplinary perspectives it is organised in seven sections Environmental thought past and present Valuing the environment Knowledges and knowing Political economy of environmental change Environmental technologies Redesigning natures Institutions and policies for influencing the environment Key themes include locations where the environment society relation is most acute where for example there are few natural resources or where industrialization is unregulated the discussion of these issues at different scales local regional national and global the cost of damage to resources and the relation between principal actors in the environment society nexus Aimed at an international audience of academics research students
