**Jane's Fighting Ships, 1979-1980**, 1980     Jane's Fighting Ships Key Book Service, Incorporated, 1985-01-01

Jane's Fighting Ships 2009-2010 Stephen Saunders, 2009-06-24 Jane's Fighting Ships is your essential reference to the world's navies. Country by country you will find authoritative commentaries for each ship complete with comprehensive details of displacement and dimensions, main machinery, speed and range, weapons systems, construction and modernisation programmes, latest operational status and strength of fleet, including sales to other navies.     **Navies of South-East Asia** James Goldrick, Jack McCaffrie, 2013 A comprehensive survey of the development and operations of the navies of South East Asia since the end of the Second World War from p 1     The Laird Rams Andrew R. English, 2021-10-01 Built in Birkenhead, England from 1862 to 1865, the Laird Rams were two innovative armored warships intended for service with the Confederate Navy during the Civil War. The vessels represented a substantial threat to Union naval power and offered the Confederacy a potential means to break the Union blockade of the Southern coastline. During 1863, the critical year of the Confederacy's last hope of recognition by the British and French, President Lincoln threatened war with Britain if the ships ever sailed under Confederate colors. Built in some secrecy, then launched on the River Mersey under intense international scrutiny, the ships were first seized and then purchased by Britain to avoid a war with the United States. These armored warships were largely forgotten after the Admiralty acquired them. Historians rarely mention these sister warships if referred at all; they are given short shrift. This book provides the first complete history of these once famous ironclads that never fired a shot in anger yet served at distant stations as defenders of the British Empire.     **Monthly Catalog of United States Government**

**Statistical Abstract of the United States**, 1980     **Contest for the South China Sea** Marwyn Samuels, 2013-11-05 First published in 1982, wide-ranging and fully documented, this book is the first detailed study of the origins, contexts, and consequences of the long-standing dispute between China, Taiwan, Vietnam, and the Philippines over the Paracel and Spratly Archipelagos in the South China Sea, one of the world's most strategically important inter-oceanic basins and China's southern maritime frontier. Samuels' analysis highlights the impact of the shifting balance of power in Asia and the growing competition for oceanic resources. Examines the implications of the dispute in terms of the historical and modern role of China as a maritime power in Asia.     *Ethiopia, a Country Study* American University (Washington, D.C.). Foreign Area Studies, 1981     *The Soviet Union in the Third World* Robert H. Donaldson, 2022-12-28 The Soviet Union in the Third World, 1981 analyses Soviet objectives in the developing world, the instruments of foreign policy employed, and their success and failure; the implications of Soviet foreign policy for the international system in general and the US foreign and defence policies in particular. Twenty leading specialists examine Soviet involvement in Latin America, Africa, the Middle East, and Asia and discuss the subject from both security and economic perspectives.     *The Royal Navy in the Cold War Years, 1966-1990*

Edward Hampshire, 2024-07-30 During the period covered by this new book the Royal Navy faced some of its greatest challenges both at sea confronting the increasingly capable and impressive Soviet Navy and on shore when it faced policy crises that threatened the survival of much of the fleet During this remarkable period the Navy had rarely been so focussed on a single theater of war the Eastern Atlantic but also rarely so politically vulnerable The author sets out to analyze shadowing operations and confrontations at sea with Soviet ships and submarines the Navy's role in the enormous NATO and Warsaw Pact naval exercises that acted out potential war scenarios individual operations from the Falklands and the 1990-91 Gulf War to the Beira and Armilla patrols the development of advanced naval technologies to counter Soviet capabilities policy making controversies as the three services fought for resources including the controversial 1981 Nott defense review and what life was like in the Cold War navy for ratings and officers The book the first to cover this subject in depth for more than thirty years will make use of the full range of archival sources that have been publicly available over the last two decades but of which little use has been made by historians This work is destined to become a definitive naval history of the period and also provide a fascinating and gripping narrative of a navy under threat from many directions but which survived and eventually prospered winning a remarkable victory in the far South Atlantic more than 7 000 miles from its expected battleground in the North Atlantic Elegantly written for a wide audience it will be a very significant volume for professional and enthusiast alike [Dictionary of American Naval Fighting Ships](#), 1959

**China's Evolving Surface Fleet** Peter Dutton, Ryan D. Martinson, 2017 Over the past fifteen years the People's Liberation Army Navy's PLAN's missile fast attack craft and amphibious fleets have been significantly modernized While these two types of vessels have not increased in numbers their capabilities have increased exponentially This publication examines the People's Liberation Army's PLA's doctrine and training strategy in order to analyze present and predict future missions by these military vessels China's deterrence posture is improved greatly by these ships and boats which aid coastal water defense and threaten Taiwanese attempts to gain independence In addition these two fleets improve China's long range sealift capabilities and help with the PLA's traditional and new nontraditional security practices These fleets allow the PLAN to continue offshore operations and begin blue water or far seas operations helping the United States to predict the future nature of Chinese maritime missions Related items China collection of publications can be found here <https://bookstore.gpo.gov/catalog/china> Chinese Military Reforms in the Age of Xi Jinping Drivers Challenges and Implications can be found here <https://bookstore.gpo.gov/products/chinese-military-reforms-age-xi-jinping-drivers-challenges-and-implications> Indian and Chinese Engagement in Latin America and the Caribbean A Comparative Assessment can be found here <https://bookstore.gpo.gov/products/indian-and-chinese-engagement-latin-america-and-caribbean> U S Landpower in the South China Sea can be found here <https://bookstore.gpo.gov/products/us-landpower-south-china-sea> [Dictionary of American Naval Fighting Ships: Historical sketches](#), 1981
