Fighting Techniques of the Ancient World (3000 B.C. to 500 A.D.) Simon Anglim, Rob S. Rice, Phyllis Jestice, 2003 Provides a detailed highly illustrated guide to warfare in the classical ancient world Jacket **A Cumulative Bibliography of Medieval Military History and Technology, Update 2004** Kelly DeVries, 2004-12-01 This is the first update of A Cumulative Bibliography of Medieval Military History and Technology which appeared in 2002 It is meant to do two things to present references to works on medieval military history and technology not included in the first volume and to present references to all books and articles published on medieval military history and technology from 2000 to 2002 These references are divided into the same categories as in the first volume and cover a chronological period of the same length from late antiquity to 1648 again in order to present a more complete picture of influences on and from the Middle Ages It also continues to cover the same geographical area as the first volume in essence Europe and the Middle East or again influences on and from this area The languages of these bibliographical references reflect this geography *Mercenaries in the Classical World* Stephen English, 2012-10-24 Mercenaries were a significant factor in many of the wars of the Classical world being employed in large numbers by many states By far the most famous were Xenophon's Ten Thousand who had to cut their way out of the Persian Empire after the death of their employer and such Greek infantry were for long the most dominant type even a Spartan king hiring himself out in one case but there was a wide variety of mercenaries available Some such as Celts and Thracians were hired largely for their love of fighting while others were valued for their specialist skills such as Cretan archers or slingers from Rhodes or the Balearic Islands This will be the first full length book on the subject since 1997 It will examine the role of the mercenaries and their influence on the wars of the period down to the death of Alexander the Great who employed them and why and will also look at the social and economic pressures that drove tens of thousands to make a living of fighting for the highest bidder despite the intense dangers of the ancient battlefield New Perspectives on Ancient Warfare[electronic Resource] Garrett G. Fagan, Matthew Freeman Trundle, 2010 New Perspectives on Ancient Warfare explores the armies of antiquity from Assyria and Persia to classical Greece and Rome The studies illustrate the ways in which technology innovation cultural exchange and tactical developments transformed ancient warfare by land and sea *Woe-Speeches within the Context of an Oracular Inquiry* Michael Floyd, 2024-12-12 Michael H Floyd explores how the woe speeches in Habakkuk 2 6 20 are related in form and content to the message revealed to the prophet in Hab 2 1 5 defending his reading through spirited debate with other scholars who have similarly proposed a fresh take on various exegetical puzzles of Chapter 2 After assessing the preceding material in Habakkuk 2 as the necessary prelude to analyzing the woe speeches themselves Floyd explores the form and function of the woe speeches themselves in light of how they fit into the unfolding composition of the oracular report that makes up Habakkuk 2 He further brings together and systematizes previous observations about the rhetoric of reproof arguing that the woe speeches themselves represent a

different type of reproof speech one that also draws upon wisdom traditions but uses them in a way that is more accusatory and self incriminating than persuasive and correctional He proposes that although the outcry of the nations in Habakkuk 2 is obviously a fictional representation of the international situation it nevertheless expresses a realpolitik critique of ancient Near Eastern imperialism Floyd concludes that as an integral part of Habakkuk's oracular inquiry the woe speeches provide a basis for a critique of the idolatrous ideology of imperialism and a model of how to live hopefully despite being under an imperialistic thumb Medieval Military Technology, Second Edition Kelly Robert DeVries, Robert Douglas

Smith, 2012-05-01 First published in 1992 Medieval Military Technology has become the definitive book in its field garnering much praise and a large readership This thorough update of a classic book regarded as both an excellent overview and an important piece of scholarship includes fully revised content new sections on the use of horses handguns incendiary weapons and siege engines and eighteen new illustrations The four key organizing sections of the book still remain arms and armor artillery fortifications and warships Throughout the authors connect these technologies to broader themes and developments in medieval society as well as to current scholarly and curatorial controversies **Medieval Military Technology** Kelly

Robert DeVries, Kelly DeVries, Robert Douglas Smith, 2012-01-01 This thorough update of a classic book includes fully revised content new sections on the use of horses handguns incendiary weapons and siege engines and new illustrations Some

Fighting for the King and the Gods Charlie Trimm, 2017-10-30 The most up to date sourcebook on warfare in the ancient Near East Fighting for the King and the Gods provides an introduction to the topic of war and the variety of texts concerning many aspects of warfare in the ancient Near East These texts illustrate various viewpoints of war and show how warfare was an integral part of life Trimm examines not only the victors and the famous battles but also the hardship that war brought to many While several of these texts treated here are well known i e Ramses II's battle against the Hittites at Qadesh others are known only to specialists This work will allow a broader audience to access and appreciate these important texts as they relate to the history and ideology of warfare Features References to recent secondary literature for further study Early Greek and Chinese illustrative texts for comparisons with other cultures Indices to help guide the reader

Social and Political Life in Late Antiquity - Volume 3.1 William Bowden, Adam Gutteridge, Carlos Machado, 2006-12-31 This book examines a number of

themes relating to social and political life in Late Antiquity The first part of the book considers how the powers of the emperor state and civic authorities were expressed in the physical environment and how coinage and material culture were caught up in the political life of the period The second part investigates the middle classes and the poor who are often less visible in archaeological textual and epigraphic records Other articles consider such topics as long term social evolution and the definition of time in Late Antiquity Two extensive bibliographic essays provide an overview of published literature relating to social and political life

Triumph and Betrayal Alexander Johannes Edmonds, 2025-04-21 While the study of Assyria as the world's first empire has never been more popular the events of the foundational early Neo Assyrian period 935-745 BC remain only poorly understood and explained This book re-examines the historical question of Assyria's expansion presenting a novel reconstruction of the early Neo Assyrian period with the latest data including new Assyrian kings detailed regional studies synthesising the newest historical and archaeological findings and interpretative essays outlining new historical factors The resultant history is unprecedentedly complex containing newly discovered succession conflicts difficult compromises with neighbouring powers local dynasties appointed to Assyrian governorships self-serving high officials and sudden reverses in policy In place of circular structuralist arguments for the Neo Assyrian expansion it presents a new model emphasising internal political conflict and competing visions for Assyria's future This book is intended for historians and archaeologists of Assyria for whom it will provide a new basis for research and also for scholars of neighbouring disciplines and laypersons interested in what happens to an ancient state before it becomes an empire
