From Chivalry to Terrorism Leo Braudy,2010-12-08 Manliness has always been linked to physical prowess and to war indeed the warrior has been the archetypal man across countless cultures throughout time In this magisterial excursion through literature history warfare and sociology one of our most prominent scholars tracks the complex relationship between the changing methods and goals of warfare and shifting models of manhood This journey takes us from the citizen soldiers of ancient Greece to the medieval knights to the misogynistic terrorists of Al Qaeda As he chronicles these transformations Leo Braudy weighs the significance of everything from weapon technology to the hairstyles favored during different eras He offers fresh insights on codes of war and codes of racial purity and on cultural and historical figures from Socrates to Don Quixote to Napoleon to Custer to Rambo Epic in scope and free of academic jargon From Chivalry to Terrorism is a masterwork of scholarship that is both accessible and breathtakingly ambitious *Swear Like a Trooper* William L. Priest,2000 Perfect for the armchair linguist or the military historian this is a comprehensive compilation of military lingo from Hannibal to Hanoi Priest traces the evolution of each term or phrase as it moves from its point of origin to other branches of service and into foreign countries *The Other Rebellion* Eric Van Young,2002-04-01 Mexico's movement toward independence from Spain was a key episode in the dissolution of the great Spanish Empire and its accompanying armed conflict arguably the first great war of decolonization in the nineteenth century This book argues that in addition to being a war of national liberation the struggle was also an internal war pitting classes and ethnic groups against each other an intensely localized struggle by rural people especially Indians for the preservation of their communities While local and national elites focused their energies on wresting power from colonial authorities and building a new nation state rural people were often much more concerned about keeping village identities and lifeways intact against the forces of state expansion commercialization and modernization Conventional wisdom says that Mexican independence was achieved through a cross class and cross ethnic alliance between creole ideologues military leaders and a mass following This book

shows that this is not only an incomplete explanation of what went on in Mexico during the decade of armed confrontation that led to Mexico's independence but also a distortion of Mexican social and cultural history. The author delves deeply into life histories, previously unexamined texts, statistical social profiling, and local historical ethnography to examine the dynamics of popular rebellion. He focuses especially on Mexico's Indian villages but also considers the role of parish priests as insurgent leaders, local conflicts over land, politics, and religious symbols, the influence of messianism and millenarianism in popular insurgent ideology, and the everyday language of political upheaval.

Taming the Elephant John F. Burns, Richard J. Orsi, 2003-04-30

Taming the Elephant is the last of four volumes in the distinguished California History Sesquicentennial Series, an outstanding compilation of original essays by leading historians and writers. These topical interrelated volumes reexamine the meaning of the founding of modern California during the state's pioneer period. General themes run through all four volumes: the interplay of traditional cultures and frontier innovation in the creation of a distinctive California society; the dynamic interaction of people and nature and the beginnings of massive environmental change; the impact of the California experience on the nation and the world; the influence of pioneer patterns on modern California; and the legacy of ethnic and cultural diversity as a major influence on the state's history. This fourth volume treats the role of post-Gold Rush California government, politics, and law in the building of a dynamic state with influences that persist today. Provocative essays investigate the creation of constitutional foundations, law, and jurisprudence; the formation of government agencies and the development of public policy. Authors chart the roles played by diverse groups: criminals and peace officers, entrepreneurs and miners, farmers and public officials, defenders of discrimination and female and African American activists. The essays also explore subjects largely overlooked in the past, such as the significance of local and federal government in pioneer California and early struggles to secure civil rights for women and racial minorities.

War Narratives in Post-Conflict Societies Michal Mochtak, 2024-02-29

This book studies war narratives and their role in the political arenas of post-conflict societies, with a focus on the former Yugoslavia. How do politicians in postwar societies talk about the past war? How do they discursively represent vulnerable social groups created by the conflict? Does the nature of this representation depend on the politicians' ideology, personal characteristics, or their record of combat service? The book answers these questions by pairing natural language processing tools and large corpora of parliamentary debates collected in three southeast European post-conflict societies: Bosnia Herzegovina, Croatia, and Serbia. Using the latest advances in computer science, the book explores patterns in the war discourse of the political elites of these countries and discusses how politicians talk about war in terms of common narratives and shared frameworks. Mapping over 20 years of parliamentary debates, the book presents a new perspective on the role of the legacies of war in public space and develops theoretical arguments about reconciliation in post-conflict societies. The wars of the 1990s and the breakup of Yugoslavia have created three totally different settings for remembering the past conflicts in these countries despite their common history. It is a story of victorious battles, Croatia past

grievances Bosnia Herzegovina and denial Serbia showing the different flavors of past wars in various national contexts that are symptomatic of many post conflict societies in different parts of the world This book will be of much interest to students of war and conflict studies southeastern European politics discourse analysis and international relations A Broken Regiment Lesley J. Gordon, 2014-11-10 A Broken Regiment recounts the tragic history of one of the Civil War s most ill fated Union military units Organized in the late summer of 1862 the 16th Connecticut Volunteer Infantry was unprepared for battle a month later when it entered the fight at Antietam The results were catastrophic nearly a quarter of the men were killed or wounded and Connecticut s 16th panicked and fled the field In the years that followed the regiment participated in minor skirmishes before surrendering en masse in North Carolina in 1864 Most of its members spent months in southern prison camps including the notorious Andersonville stockade where disease and starvation took the lives of over one hundred members of the unit The struggles of the 16th led survivors to reflect on the true nature of their military experience during and after the war and questions of cowardice and courage patriotism and purpose were often foremost in their thoughts Over time competing stories emerged of who they were why they endured what they did and how they should be remembered By the end of the century their collective recollections reshaped this troubling and traumatic past and the unfortunate regiment emerged as the Brave Sixteenth their individual memories and accounts altered to fit the more heroic contours of the Union victory The product of over a decade of research Lesley J Gordon s A Broken Regiment illuminates this unit s complex history amid the interplay of various and often competing voices The result is a fascinating and heartrending story of one regiment s wartime and postwar struggles *Civil War Book Review* ,1999 **Cultural Heritage of the Great War in Britain** Ross J.
