**Perspectives On Intense Involvement in Sports** Irwin Hirsch, Phillip Blumberg, Robert Watson, 2020-10-26 This book is a unique volume that brings a variety of psychoanalytic perspectives to the study of sport It highlights the importance of sports for different individuals and how the function and use of sports can be brought into the consulting room Passionate interest in actively engaging in sports is a universal phenomenon It is striking that this aspect of human life prior to this volume has

received little attention in the literature of psychoanalysis This edited volume is comprised largely of psychoanalysts who are themselves avidly involved with sports It is suggested that intense involvement in sports prioritizes commitment and active engagement over passivity and that such involvement provides an emotionally tinged distraction from the various misfortunes of life Indeed the ups and downs in mood related to athletic victory or defeat often supplant temporarily matters in life that may be more personally urgent Engaging in sports or rooting for teams provides a feeling of community and a sense of identification with like minded others even among those who are part of other communities and have sufficient communal identifications This book offers a better psychoanalytic understanding of sports to help us discover more about ourselves our patients and our culture and will be of great interest to psychotherapists and psychoanalysts or anyone with an interest in sport and its link to psychoanalysis and mental health

Creativity and the Poetic Mind Jean Tobin, 2004 Creativity and the Poetic Mind mingles the voices of well known writers such as Nikki Giovanni Donald Hall John Koethe Marge Piercy and Robert Pinsky with newer voices and includes engaging excerpts from interviews with thirty eight American poets Within a sustained argument about creative states of mind this book innovatively presents and explores the technique of going to the place as more reliable in writing poetry than waiting for inspiration It explains why poets frequently believe that talking about their own poetry may damage their creativity and why for centuries inspiration has seemed to come from somewhere beyond the poet In addition it discusses the practicality of poets thinking that being creative and writing poetry are two separate skills inspiration is unreliable but experienced poets create daily
