David, 2022-09-13 Filipino Americans are one of the three largest Asian American groups in the United States and the second largest immigrant population in the country Yet within the field of Asian American Studies Filipino American history and culture have received comparatively less attention than have other ethnic groups Over the past twenty years however Filipino American scholars across various disciplines have published numerous books and research articles as a way of addressing their unique concerns and experiences as an ethnic group The SAGE Encyclopedia of Filipina x o American Studies the first on the topic of Filipino American Studies offers a comprehensive survey of an emerging field focusing on the Filipino diaspora in the United States as well as highlighting issues facing immigrant groups in general It covers a broad range of topics and disciplines including activism and education arts and humanities health history and historical figures immigration psychology regional trends and sociology and social issues *Asian American Poets* Guiyou Huang, 2002-05-30 Even though Asian American literature is enjoying an impressive critical popularity attention has focused primarily on longer narrative forms such as the novel And

despite the proliferation of a large number of poets of Asian descent in the 20th century Asian American poetry remains a neglected area of study Poetry as an elite genre has not reached the level of popularity of the novel or short story partly due to the difficulties of reading and interpreting poetic texts The lack of criticism on Asian American poetry speaks to the urgent need for scholarship in this area since perhaps more than any other genre poetry most forcefully captures the intense feelings and emotions that Asian Americans have experienced about themselves and their world This reference book overviews the tremendous cultural contributions of Asian American poets Included are alphabetically arranged entries on 48 American poets of Asian descent most of whom have been active during the latter half of the 20th century Each entry begins with a short biography which sometimes includes information drawn from personal interviews The entries then discuss the poet's major works and themes including such concerns as family racism sexism identity language and politics A survey of the poet's critical reception follows In many cases the existing criticism is scant and the entries offer new readings of neglected works The entries conclude with bibliographies of primary and secondary texts and the volume closes with a selected general bibliography

Arnis Mark Wiley, 2012-08-07 *Arnis* Reflections on the History and Development of the Filipino Martial Arts is an intriguing collection of essays on Filipino martial arts. Featured are insightful essays by Filipino martial artists Krishna K. Godhania, Antonio E. Somera, Abner G. Pasa, Dr. Jopet Laraya, Felipe P. Beano Jr., Rene J. Navarro. For centuries, Filipino martial arts have played integral and often momentous roles in the history of the Philippines and in the survival of the Filipino people. But what are these arts? Where do they come from? How have they developed? Where are they headed? And what inner dimensions do they offer their practitioners? These questions, among others, form the basis of *Arnis: Reflections on the History and Development of the Filipino Martial Arts*.

Military Engagement Dennis C. Blair, 2013-06-28 The response of an autocratic nation's armed forces is crucial to the outcome of democratization movements throughout the world. But what exact internal conditions have led to real-world democratic transitions, and have external forces helped or hurt? Here, experts with military and policy backgrounds, some of whom have played a role in democratic transitions, present instructive case studies of democratic movements. Focusing on the specific domestic context and the many influences that have contributed to successful transitions, the authors write about democratic civil-military relations in fourteen countries and five world regions. The cases include Argentina, Chile, El Salvador, Egypt, Hungary, Indonesia, Lebanon, Nigeria, Philippines, Senegal, South Africa, Spain, Syria, and Thailand, augmented by regional overviews of Asia, Europe, Latin America, North Africa, and the Middle East, and sub-Saharan Africa.
