*The Future of the Descriptive Cataloging Rules* American Library Association, 1998 Annotation What is the future of the Anglo American Cataloging Rules It depends on who you ask We asked the experts Schottlaender has pulled together the key authorities on cataloging with AACR2R to examine critical issues This useful book will help catalogers prepare themselves for what lies ahead for AACR2R Digital Scholarship in the Tenure, Promotion and Review Process Deborah Lines

Andersen, 2015-04-15 To receive tenure college and university professors have long been required to write scholarly monographs or articles engage in serious research and teach effectively In recent years however the emergence of digital scholarship has revolutionized and complicated the picture in unexpected ways as new electronic media have enabled academics to communicate scholarly material in innovative formats such as websites PowerPoint presentations CD ROMs and virtual reality tours Despite this growing output of sophisticated digital scholarship there has been little attempt to set standards define basic issues and concepts or integrate electronic scholarship into the tenure debate This collection of cutting edge articles marks the first effort to evaluate the place of digital scholarship in the tenure promotion and review process As a primer aimed at scholars faculty members and department chairs in the humanities social sciences and other fields as well as deans provosts and university administrators this collection examines the evolution of nontraditional scholarship analyzes the various formats and suggests guidelines for assessment on a scholarly level It also examines the impact of digital scholarship in the classroom and academy and explores new directions for the future This book will help shape policy in the murky world of tenure review and could become a central text for scholars and administrators everywhere Proceedings of the Meeting Association of Research Libraries, Association of Research Libraries.
