Garrett, 1989-01-01 *Tennessee Williams, T-shirt Modernism and the Refashionings of Theater* S. E. Gontarski, 2021-07-06 Tennessee Williams T shirt Modernism and the Refashionings of Theater reappraises the received wisdom that Williams's work fell into decline in the late 1960 as the Naturalism he was associated with not always through his own choice was replaced by European theatrical experimentalism and as culture saw a lifting of sexual restrictions It suggests instead that Williams was always experimental always more Chekhov than Ibsen a lyrical playwright inflected with the poetry of Hart Crane and that his late plays are as central to Williams's reshaping of American theater as those works of the immediate post World War II era that brought him fame and fortune Its general aim then is to engage the perception that Tennessee Williams is the greatest unknown playwright America has produced David Savran City University of New York In many respects the work of Tennessee Williams after a protracted period of neglect is primed for reappraisal reinterpretations and subsequently re stagings This work is part of that process academically at very least but performatively as well as academic reinterest often regenerates theatrical reinterest *Film Scripts: Henry V. The big sleep. A streetcar named Desire* George Garrett, O. B. Hardison, Jane R. Gelfman, 1971 **Cinematic Fictions** David Seed, 2012-01-01 The phrase cinematic fiction has now been generally accepted into critical discourse but is usually applied to post war novels This book asks a simple question given their fascination with the new medium of film did American novelists attempt to apply cinematic methods in their own writings From its very beginnings the cinema has played a special role in defining American culture Covering the period from the 1910s up to the Second World War Cinematic Fictions offers new insights into classics like *The Great Gatsby* and *The Grapes of Wrath* discussing major writers critical writings on film and active participation in film making Cinematic Fictions is also careful not to portray cinema as a single or stable entity Some novelists drew on silent film others looked to the Russian theorists for inspiration and yet others turned to continental film makers rather than to Hollywood Film itself was constantly evolving during the first decades of the twentieth century and the writers discussed here engaged in a kind of dialogue with the new medium selectively pursuing strategies of montage limited point of view and scenic composition towards their different ends Contrasting a diverse range of cinematic and literary movements this will be compulsory reading for scholars of American literature and film *Guidebook to Film* Ronald Gottesman, Harry M.
