# Films Of Alfred Hitchcock

## Films Of Alfred Hitchcock:

**Alfred Hitchcock** Nicholas Haeffner, 2015-02-11 Nicholas Haeffner provides a comprehensive introduction to Alfred Hitchcock's major British and Hollywood films and usefully navigates the reader through a wealth of critical commentaries. One of the acknowledged giants of film, Hitchcock's prolific half-century career spanned the silent and sound eras and resulted in 53 films, of which *Rear Window* (1954), *Vertigo* (1958) and *Psycho* (1960) are now seen as classics within the suspense, melodrama and horror genres. In contrast to previous works which have attempted to get inside Hitchcock's mind and psychoanalyse his films, this book takes a more materialist stance. As Haeffner makes clear, Hitchcock was simultaneously a professional film maker working as part of a team in the film factories of Hollywood, a media celebrity and an aspiring artist, gifted with considerable entrepreneurial flair for marketing himself and his films. The book makes a case for locating the director's remarkable body of work within traditions of highbrow, middlebrow and lowbrow culture, appealing to different audience constituencies in a calculated strategy. The book upholds the case for taking Hitchcock's work seriously and challenges his popular reputation as a misogynist through detailed analyses of his most controversial films. **The Films of Alfred Hitchcock** David Sterritt, 1996 *The Complete Films of Alfred Hitchcock* Robert A. Harris, Michael S. Lasky, 2002 A tribute to the undisputed master of terror and suspense and the visionary who revolutionised the art of filmmaking, this book covers everything from his 1922 silent film *The Pleasure Garden* to his final 1976 film *Family Plot*, including such masterpieces as *Vertigo*, *Psycho*, *Rear Window* and *The Birds*, and the years of his popular television show *Alfred Hitchcock Presents*. Complete with 450 b/w stills from his many films and a text that examines the background of each production, this is the ultimate portrait of the movie genius in all his cinematic glory. [Alfred Hitchcock's Silent Films](#) Marc Raymond Strauss, 2015-01-24 Alfred Hitchcock called the silent the purest form of cinema, and the ten silent films he directed between 1925 and 1929 reveal the young director's mature artistry. Hitchcock's silents have often been characterized as the work of a talented amateur, a young director practicing his craft during a pre-sound era of antiquated instruments and poor film techniques; the director experimented with myriad points of view, unique camera angles and movements, and special effects such as dissolves, blurriness and violent cuts. These films, however, contain the first appearances of some of his greatest and most familiar techniques: the vertigo-inducing crowd scene, the symbolic use of inanimate objects, the manipulation of the audience's emotions, and the self-conscious, often macabre wit. This work discovers Hitchcock's early talent and skill through close readings of the films, from *The Pleasure Garden* to the silent version of *Blackmail*, using shot-by-shot descriptions and interpretations. Each film's chapter includes technical information, a summary of the critical response from the film's release to the present, and detailed analysis of the camera techniques and themes Hitchcock uses. **Alfred Hitchcock** Jane Sloan, 1995-03-08 A concise and intelligent synthesis of what we know and think about Hitchcock, and a road map to future work on the subject. There is no complete index to Hitchcock's career like this one, and critics and historians will mine Sloan's

work with enormous profit The Critical Survey section constitutes an invaluable contribution to the project of metacriticism
