The Early Hans Urs von Balthasar Paul Silas Peterson, 2015-02-24 although Hans Urs von Balthasar's earliest publication is from 1925 and although he was a mature forty years old in 1945 there is a deficiency in the secondary literature regarding his early literature its historical backgrounds and non theological sources In this study Balthasar is presented in relation to the various contexts in which he was both drawing upon and responding to from the 1920s to the 1940s The major contexts analyzed here are the broad central European Germanophone cultural context the Germanophone Catholic cultural context the German studies context the French Catholic renewal literature and theology of the early 20th century the popular journal *Stimmen der Zeit* Neo Scholasticism early 20th century French Catholic culture Swiss fascism National Socialist literature the *Renouveau Catholique* the *George Kreis* and many others Balthasar's early anti Semitism and some of the problematic aspects of his early work are also addressed in this study His understanding of the modern age his relationships with some key intellectual figures and his later reflections on his early work are also introduced The book offers a comprehensive study of Balthasar's early intellectual development ***Painting the Prehistoric Body in Late Nineteenth-Century France***

Shalon Parker,2018-11-19 In late nineteenth century France when Charles Darwin s theories of evolution had finally begun to permeate French culture and society several academic artists turned to a relatively new sub genre of history painting the prehistoric themed subject This artistic interest in Darwin s theories was manifested as paintings and sculptures of prehistoric humanity engaged in physical conflict with each other or other animals struggling for food or hunting all nineteenth century popular understandings of survival of the fittest This book examines how this sub genre captured the imagination of French Salon painters from the 1880s to early 1900s in particular that of Fernand Cormon 1845 1924 one of the foremost academic painters during the final quarter of the nineteenth century A central argument of this book concerns the unique interpretation of prehistoric humanity that Cormon visualized in his paintings While the vast majority of prehistoric themed images made by his salon colleagues focused on violence combat and sexual conquest Cormon s paintings depict a conflict free humanity in which collaboration and cooperation dominate rather than physical struggle This study probes the French intellectual understanding and appropriation of Darwin s theories and considers how the French mis translation of The Origin of Species by Cl mence Auguste Royer the first French translator of the text along with Neo Lamarckism and republican ideology in Third Republic France may have collectively shaped Cormon s representation of early humanity The art press overwhelmingly favored Cormon s visualization of the prehistoric world over that of his Salon peers Through extended analysis of the art criticism concerning Cormon s work Shalon Parker argues that critics very clear preference for Cormon s paintings was rooted in their awareness that he utilized the sub genre of the prehistoric as a forum in which to reimagine and revive academic figurative painting at a time when the critical reception of Salon art had reached its nadir Additionally this study provides a broad overview of the visual models in particular the anthropological and ethnographic texts and imagery most readily available to Cormon as sources for shaping his vision of the prehistoric world
