Final War:

Final War Leo Giampietro, 2011-04 In the end there will be many wars this will be one of the signs that the end is near In Matthew 24 7 8 Jesus Christ foretold signs that would mark the time leading up to His return For nation will rise against nation and kingdom against kingdom And there will be famines pestilences and earthquakes in various places We have certainly seen devastating earthquakes in recent years The December 2004 earthquake off Indonesia was the most powerful in decades unleashing a massive tsunami that took some 300 000 lives Less than a year later an earthquake in southern Asia killed another 30 000 In Matthew 24 7 the Greek word translated earthquakes is seismos from which we derive such English words as seismology referring to the study of earthquakes Strong's Lexicon defines it as a commotion i e of the air a gale of the ground an earthquake earthquake tempest Seismos has a broader meaning than just the earth shaking Matthew 8 records how a violent storm overtook Jesus and His disciples on the Sea of Galilee threatening to capsize their boat and drown them until Jesus miraculously calmed the winds and waves *The Final War* Frederick Thomas Jane, Louis Tracy, 1998 This volume traces the modern critical and performance history of this play one of Shakespeare's most loved and most performed comedies The essay focus on such modern concerns as feminism deconstruction textual theory and queer theory *America's Final War* Andrei Martynanov, 2024-06-01 Washington's eight years of preparing Ukraine and its armed forces for war with Russia was a mistake of historic proportions due to its misperception of American military power based on its 1991 Gulf War victory against a minor military player Washington believed its own propaganda about crippling sanctions on Russia about the viability of its Ukrainian proxy army and the economic and military weakness of Russia spelling doom for the American empire and its rules based order By 2023 the Kiev regime could no longer exist without the West's support both financial and in war materiel By 2024 Russia will have not just exhausted Ukraine but also demilitarized NATO as a whole exposing the industrial and military impotence of the US and its European vassals The United States military as a whole and the USAF in particular have no resources or means to close the ever widening gap in capability between American and Russian Air Defenses insofar as such systems as the S 500 are already being produced serially in Russia with their immense range of more than 500 kilometers against aerial targets not to mention their full integration with Russia's Air Force and Air Defense The air space of Russia is becoming increasingly prohibitive to penetration by any combination of USAF and NATO forces The US has fallen behind and it won't be able to catch up **The Final War, and the Permanent Peace** John COX (Baptist Minister.), 1859 [Satan's Looming Identity Crisis! the Final War in the Age of Reason](#) I. A. Mallone, 2010-01-05 **Final War on Jupiter** Carl Wells, 2010-05 An emperor's report in his own words Final War On Jupiter is written by Sagwind IV emperor of Ramosan Jupiter Sagwind IV was appointed Supreme Warlord of the Allied Forces for the Preservation of Jupiterian Civilization in the war with Godosan a war which shook an entire planet This is his very personal report on that expedition Final War On Jupiter is the concluding volume of the trilogy The Chronicles of Jupiter

G. Wells, 2016-09-14 This is a 1914 novel written by H G Wells Within it wells writes passionately and with elegance about his conviction that World War I will be the war to end all wars Although he was obviously and unfortunately wrong in his suppositions his book makes a good case for his belief and is highly recommended for those with an interest in WWI Contents include Why Britain Went to War The Sword of Peace Hands Off the People's Food Concerning Mr Maximilian Craft The Most Necessary Measures in the World The Need of a New Map of Europe The Opportunity of Liberalism The Liberal Fear of Russia An Appeal to the American People et cetera Herbert George Wells 1866 1946 was a prolific English writer who wrote in a variety of genres including the novel politics history and social commentary Today he is perhaps best remembered for his contributions to the science fiction genre thanks to such novels as *The Time Machine* 1895 *The Invisible Man* 1897 and *The War of the Worlds* 1898 Many vintage books such as this are becoming increasingly scarce and expensive We are republishing this book now in an affordable modern high quality edition complete with a specially commissioned new biography of the author **Dreamworlds of Race** Duncan Bell, 2020-12-08 How transatlantic thinkers in the late nineteenth and early twentieth centuries promoted the unification of Britain and the United States Between the late nineteenth century and the First World War an ocean spanning network of prominent individuals advocated the unification of Britain and the United States They dreamt of the final consolidation of the Angloworld Scholars journalists politicians businessmen and science fiction writers invested the Anglo Saxons with extraordinary power The most ambitious hailed them as a people destined to bring peace and justice to the earth More modest visions still imagined them as likely to shape the twentieth century *Dreamworlds of Race* explores this remarkable moment in the intellectual history of racial domination political utopianism and world order Focusing on a quartet of extraordinary figures Andrew Carnegie W T Stead Cecil J Rhodes and H

Ratzlaff,2008-04-17 A pacifists timely and passionate manifesto addressing the issue of global warming Utopia as Ratzlaff explains is not some unattainable oasis but rather a world without war and with a balanced global habitat that can sustain future generations Rank and file Americans need to be able to comprehend what global warming is all about the author writes in order to grasp what will happen if we fail to take immediate steps to combat it The book is not a scientific treatise bogged down with academic language but rather a pacifists simple approach to solving one of the worlds most difficult dilemmas Employing a minimum of hard data to explore melting ice caps rising sea levels changing weather patterns and ocean currents Ratzlaff effectively illustrates the cause and effect relationship between human activity and the planets well being While Al Gore answered the hows and whys of global warming in An Inconvenient Truth Ratzlaff illustrates the imminent need for vast governmental and political changes and he explains the consequences of ignoring the obvious threat to our planet The author states that one of the biggest problems with the current approach to global warming is the tendency of advocates to ignore the significant role of population growth Additionally at the roots of global warming lay nationalism religious wars and the military industrial complex Ratzlaff outright blames governments and corporations for the current situation After demonstrating the various successes of the United Nations in heading off global conflicts the author concludes that the UN is the only organization capable of becoming a fully empowered international governing body Yet handcuffed by its current structure it can do nothing more than cast environmental resolutions that are often ignored Unlike other books that attempt to tackle major global issues rather than pointing out the problems and offering no solutions Ratzlaff rounds out each of the seven steps with definitive alternatives in his If I Were President summaries A thorough yet easy to comprehend take on global warming KIRKUS REVIEWS

War after Death Steven Miller,2014-03-03

War after Death considers forms of violence that regularly occur in actual wars but do not often factor into the stories we tell about war which revolve invariably around killing and death Recent history demonstrates that body counts are more necessary than ever but the fact remains that war and death is only part of the story an essential but ultimately subordinate part Beyond killing there is no

war without attacks upon the built environment ecosystems personal property artworks archives and intangible traditions Destructive as it may be such violence is difficult to classify because it does not pose a grave threat to human lives Nonetheless the book argues that destruction of the nonhuman or nonliving is a constitutive dimension of all violence especially forms of extreme violence against the living such as torture and rape and it examines how the language and practice of war are transformed when this dimension is taken into account Finally War after Death offers a rethinking of psychoanalytic approaches to war and the theory of the death drive that underlies them **It's the End of the World, My Love** Alla Gorbunova,2023-02-07 Otherworldly forces dark phantasmagoria the horrors of underground life adolescence and rebellion myth and fairy tale all swirl in Alla Gorbunova's audacious and spectacular novel Children students beggars young poets Alla Gorbunova's heroes and heroines live their lives intensely experiencing the longing joy anticipation and heartbreak of youth in 1990s Saint Petersburg But Gorbunova's interconnected episodes don't limit themselves to the realm of the everyday as they move from harsh material realities to delirious dark fantasies Characters escape decline self destruct and transform In vivid prose she conjures a fragile and haunted society and renders it with frank and uncompromising tenderness A stunning work of fiction It's the End of the World My Love is a compassionate terrifying and rewarding book from an undeniable literary voice **Stand on Guard** Stephanie Carvin,2021-05-07 Stand on Guard provides a nuanced explanation of Canadian national security threats such as violent extremism espionage and clandestine foreign influence emphasizing trust and empathy in developing national security policies to counter them **Writings on War** Carl Schmitt,2011-08-08 Writings on War collects three of Carl Schmitt's most important and controversial texts here appearing in English for the first time The Turn to the Discriminating Concept of War The Gro raum Order of International Law and The International Crime of the War of Aggression and the Principle Nullum crimen nulla poena sine lege Written between 1937 and 1945 these works articulate Schmitt's concerns throughout this period of war and crisis addressing the major failings of the League of Nations and presenting Schmitt's own conceptual history of these years of disaster for international jurisprudence For Schmitt the jurisprudence of Versailles and Nuremberg both fail to provide for a stable international system insofar as they attempt to impose universal standards of humanity on a heterogeneous world and treat efforts to revise the status quo as criminal acts of war In place of these flawed systems Schmitt argues for a new planetary order in which neither collective security organizations nor 19th century empires but Schmittian Reichs will be the leading subject of international law Writings on War will be essential reading for those seeking to understand the work of Carl Schmitt the history of international law and the international system and interwar European history Not only do these writings offer an erudite point of entry into the dynamic and charged world of interwar European jurisprudence they also speak with prescience to a 21st century world struggling with similar issues of global governance and international law **Hitler's Millennial Reich** David Redles,2005-10 After World War I German citizens sought not merely relief from the political economic social and cultural

upheaval which wracked Weimar Germany they sought salvation argues David Redles who believes that millenarian sentiment was central to the rise of Nazism

Ethics of War and Peace in Iran and Shi'i Islam Mohammed Jafar Amir Mahallati, 2016-11-14 Nearly four decades after a revolution experiencing one of the longest wars in contemporary history facing political and ideological threats by regional radicals such as ISIS and the Taliban and having succeeded in negotiations with six world powers over her nuclear program Iran appears as an experienced Muslim country seeking to build bridges with its Sunni neighbours as well as with the West Ethics of War and Peace in Iran and Shi i Islam explores the wide spectrum of theoretical approaches and practical attitudes concerning the justifications causes and conduct of war in Iranian Shi i culture By examining primary and secondary sources and investigating longer lasting factors and questions over circumstantial ones Mohammed Jafar Amir Mahallati seeks to understand modern Iranian responses to war and peace His work is the first in its field to look into the ethics of war and peace in Iran and Shi i Islam It provides a prism through which the binary source of the Iranian national and religious identity informs Iranian response to modernity By doing so the author reveals that a syncretic and civilization conscious soul in modern Iran is re emerging
