Adjustment of Wives During Their Husbands' Terminal Illnesses David Edward Peradotto,1990      Medical and Health Care Books and Serials in Print ,1997      The Theatre of Love, Sex, Marriage and Beyond Gaglozoo H. A. Berdie,2016-04-25 It is through a deep reflection that I have been able to frame the title of this book which is The Theatre of Love Sex Marriage and Beyond In fact the contents of this book take their roots from the title This book is designed to cover as much as possible

a substantial number of the various aspects of the subjects I have discussed as dealt with specifically by the innumerable authors at one time or the other It is without the slightest doubt that not all or every aspect of the subjects of love sex and marriage written or propounded by authors researchers psychologists sexologists and medical scientists can be found in one book These different and innumerable ideas theories hypothesis and research findings are as scattered in uncountable books articles newsprints or papers and magazines I will in all honesty admit that what I have attempted to do in this book is only a tip of the iceberg considering the infinitude of the intellectual input and output of others in the myriad of data on the subject I have divided this book into four parts love sex marriage and the beyond These notwithstanding I hope this humble rendition however inadequate would give readers a general overview of the essentials of these enigmatic subjects of love sex marriage and the beyond

**The Life and Work of James Bradley** John Fisher, 2024-03-08 James Bradley once the most celebrated astronomer in Europe is now an obscure figure surprising given that he was the first to establish empirically that the Earth was a planet in motion around the Sun Introduced to the science of positional astronomy by his uncle James Pound he excelled in his abilities to make precise observations Mentored by Edmond Halley he observed Jupiter and its satellites identifying the gravitational resonances of the three innermost Galilean satellites before being proposed to the fellowship of

the Royal Society by Halley with the approval of Newton Elected to the Savilian Chair in Astronomy at Oxford he joined Samuel Molyneux and George Graham in the attempt to observe annual parallax at Kew based on the attempt of Robert Hooke This experiment revealed a counter intuitive motion of the object star that defied all attempts at the resolution of the problem He designed a research programme at Wanstead when he studied the motions of 70 stars identifying a new discovered motion later called the aberration of light Recognising another motion within the residuals of his observations he identified it as a nutation of the Earth s axis He taught experimental philosophy at Oxford for 31 years His final work as Astronomer Royal was a stellar survey of unprecedented dependability taking note of every possible cause of error later reduced by Friedrich Wilhelm Bessel in his *Fundamenta Astronomi* producing a stellar catalogue of 3 222 stars **Death**
