Non-bank Financial Institutions and Capital Markets in Turkey Lalit Raina, Marie-Renée Bakker, 2003-01-01 Currently Turkey's financial services industry is in an early stage of development with credit markets dominated by banking and capital markets dominated by Government securities Longstanding macro economic instability and inflation have discouraged investment in financial assets and crowded out funding for the private sector The resulting lack of depth and breadth has made the financial sector in Turkey vulnerable to shocks resulting in repeated crises and has diminished its intermediation efficiency This study analyzes the state of development and prospects for future growth of Turkish non bank financial institutions and capital markets It identifies the key policy issues that should be addressed in order to develop non bank financial institutions in Turkey Some of the themes included in the discussion and policy recommendations are mobilizing savings building an institutional investor base comprising insurance companies private pension funds and mutual funds developing equity markets debt markets and derivative markets developing leasing factoring and venture capital companies and strengthening confidence in financial markets through improved corporate governance

Corruption and Fraud in Financial Markets Carol Alexander, Douglas Cumming, 2022-12-13 Identifying malpractice and misconduct should be top priority for financial risk managers today Corruption and Fraud in Financial Markets identifies potential issues surrounding all types of fraud misconduct price volume manipulation and other forms of malpractice Chapters cover detection prevention and regulation of corruption and fraud within different financial markets Written by experts at the forefront of finance and risk management this book details the many practices that bring potentially devastating consequences including insider trading bribery false disclosure frontrunning options backdating and improper execution or broker agency relationships Informed but corrupt traders manipulate prices in dark pools run by investment banks using anonymous deals to move prices in their own favour extracting value from ordinary investors time and time again Strategies such as wash ladder and spoofing trades are rife even on regulated exchanges and in unregulated cryptocurrency exchanges one can even see these manipulative quotes happening real time in the limit order book More generally financial market misconduct and fraud affects about 15 percent of publicly listed companies each year and the resulting fines can devastate an organisation's budget and initiate a tailspin from which it may never recover This book gives you a deeper understanding of all these issues to help prevent you and your company from falling victim to unethical practices Learn about the different types of corruption and fraud and where they

may be hiding in your organisation Identify improper relationships and conflicts of interest before they become a problem Understand the regulations surrounding market misconduct and how they affect your firm Prevent budget breaking fines and other potentially catastrophic consequences Since the LIBOR scandal many major banks have been fined billions of dollars for manipulation of prices exchange rates and interest rates Headline cases aside misconduct and fraud is uncomfortably prevalent in a large number of financial firms it can exist in a wide variety of forms with practices in multiple departments making self governance complex Corruption and Fraud in Financial Markets is a comprehensive guide to identifying and stopping potential problems before they reach the level of finable misconduct *Handbook of Key Global Financial Markets, Institutions, and Infrastructure* ,2012-12-17 Understanding twenty first century global financial integration requires a two part background The Handbook of Key Global Financial Markets Institutions and Infrastructure begins its description of how we created a financially intergrated world by first examining the history of financial globalization from Roman practices and Ottoman finance to Chinese standards the beginnings of corporate practices and the advent of efforts to safeguard financial stability It then describes the architecture itself by analyzing its parts such as markets institutions and infrastructure The contributions of sovereign funds auditing regulation loan markets property rights compensation practices Islamic finance and others to the global architecture are closely examined For those seeking substantial authoritative descriptions and summaries this volume will replace books journals and other information sources with a single easy to use reference work Substantial articles by top scholars sets this volume apart from other information sources Diverse international perspectives result in new opportunities for analysis and research Rapidly developing subjects will interest readers well into the future
