Machine Learning and Artificial Intelligence A.J. Tallón-Ballesteros, C.-H. Chen, 2020-12-15 Machine learning and artificial intelligence are already widely applied to facilitate our daily lives as well as scientific research but with the world currently facing a global COVID 19 pandemic their capacity to provide an important tool to support those searching for a way to combat the novel corona virus has never been more important This book presents the proceedings of the International Conference on Machine Learning and Intelligent

Systems MLIS 2020 which was due to be held in Seoul Korea from 25-28 October 2020 but which was delivered as an online conference on the same dates due to COVID-19 restrictions. MLIS 2020 was the latest in a series of annual conferences that aim to provide a platform for exchanging knowledge about the most recent scientific and technological advances in the field of machine learning and intelligent systems. The annual conference also strengthens links within the scientific community in related research areas. The book contains 53 papers selected from more than 160 submissions and presented at MLIS 2020. Selection was based on the results of review and scored on originality, scientific practical significance, compelling logical reasoning and language. Topics covered include data mining, image processing, neural networks, human health, natural language processing, video processing, computational intelligence, expert systems, human computer interaction, deep learning and robotics. Offering a current overview of research and developments in machine learning and artificial intelligence, the book will be of interest to all those working in the field.

Financial Management for Hospitality Decision Makers

Chris Guilding, 2007-08-22. Financial Management for Hospitality Decision Makers is written specifically for those decision makers in the industry who need to be able to decipher accountant speak and reports in order to use this information to its best advantage and achieve maximum profits. The area of accounting and finance is a vital but often inaccessible part of the hospitality business. However, having the knowledge and the ability to use it properly makes all the difference to the turnover and success of a business. Financial Management for Hospitality Decision Makers is written specifically for those industry executives who need to be able to decipher, appreciate and utilise valuable financial management tools and techniques in order to realise maximum profits. Highly practical in its scope and approach, this book outlines the procedure and purpose behind various financial activities including budgeting, year-end financial statement analysis, double entry accounting, managing and analysing costs, working capital management and investment decision making. Demonstrates how an appropriate analysis of financial reports can drive your business strategy forward from a well-informed base. Clearly highlights the key financial issues you need to consider in a host of decision-making situations. Includes a range of problems to help readers appraise their understanding of concepts with solutions provided for lecturers at <http://textbooks.elsevier.com>. At all times, the book rigorously applies itself to the specific needs of the hospitality decision maker, contextualising and explaining financial decision making and control in this light. Combining a user-friendly structure with frequent international cases, worked examples and sample reports to illuminate the theory. Financial Management for Hospitality Decision Makers is ideal for all students of hospitality as well as being a vital source of information for practitioners already in the industry.
