Set within an international context with a solid grounding in IAS/IFRS, the book provides students with a detailed grasp of reporting requirements in an accessible and engaging manner. Up to date throughout and complete in theoretical and practical coverage, the book successfully communicates the detail necessary to understand, challenge, and critically evaluate financial reporting. The result gives students a strong foundation for current study and their future professional lives. *Municipal Asset Management Toolkit (Guidelines for Local Decision Makers)* Network of Associations of Local Authorities of South-East Europe, Performance-based Highway Maintenance and Operations Management Michael J. Markow, 2012 This synthesis examines current performance-based management practices that are applied by state departments of transportation (DOTs) in highway maintenance and operations. Most past studies have focused on the elements that make up a performance-based M/O approach such as condition ratings, levels of service, performance measures, and threshold values. This study focuses on how state DOTs actually use performance-based measures to manage their highway programs.
