Financial Genius:

Bubbles in Credit and Currency B. Brown, 2008-07-24 Drawing on behavioral finance theory and contemporary experience this book explores how bubbles form and subsequently burst The author introduces a new concept of swings in market temperature defined by the extent of heterogeneity of opinion and soft irrationality and examines the importance of these swings in the credit markets

Awaken the Financial Genius in You Tonny Rutakirwa, 2010-03-25 Awaken the financial genius in you The world awaits the wonder hidden in your yet unseen genius As a matter of fact time is moving faster than you think Do not sleep nor slumber since a little bit of both attract poverty like a thief by night Momentary pleasures are fleeting Don't indulge in them because they have no reward attached to them They evaporate like morning dew at sunrise but your investments remain It is about the kind of legacy you wish to leave behind Never live to rue all the lost chances if you can help it by acting expeditiously on whatever you have learnt from this book and some others Just as the saying goes One is only old when regrets take the place of dreams Do not put off what you can do today until tomorrow it kills your inspiration and can render inaction indefinite Do not be the chief killer of your dreams Take action because that way you are able to position yourself into working towards realising your dreams by actively participating in steering your destiny in the right direction With the material in it It is no doubt a must read to all age groups and social classes
