Financing China's Rural Enterprises Dr Jun Li, Jun Li, 2003-08-29 Rural enterprises have played an important role in the extraordinary success of China's economy over the last two decades. They have greatly increased off-farm employment in rural areas and brought substantially increased incomes and standards of living to many rural people. Jun Li provides a comprehensive analysis of the financing of China's rural enterprises over the reform period and discusses the key aspects of rural enterprise development in China, including the growth of rural enterprises and enterprise level behaviour, the role of state policy, rural financial institutions, and local government. We would like to express our thanks to the sponsors of the conference: Center for International Business Education and Research, China Reform Foundation, MetLife, Hausman Shrenger LLP, Lincoln National Insurance Company, City National Bank, Marshall School of Business, University of Southern California, and The Chinese Economists Society. Financial Inclusion in China Hongmei Zhu, Wenting Zhang, 2023-09-21 This book aims to provide first-hand information for readers who are concerned about inclusive finance and sustainable development by summarizing China's policy measures and practical innovations in the development of inclusive finance and expects to provide China's experience for the development of inclusive finance in more regions. From a worldwide perspective, a large number of people had been excluded from formal financial services for a long time due to various factors. Even in developed economies with sound financial systems, relatively disadvantaged groups are often denied access to effective financial services. In 2005, the United Nations proposed the concept of Inclusive Finance, emphasizing the extension of financial services to less developed regions and low-income groups in society at an affordable cost by improving financial infrastructure and providing them with reasonably priced and convenient financial services. In 2015, the United Nations adopted the 2030 Agenda for Sustainable Development, making inclusive finance an important focus for achieving sustainable development. It has become a global consensus to vigorously develop inclusive finance. China has attached importance to improving financial services for

disadvantaged groups such as rural residents micro small and medium enterprises MSMEs and others In 2013 Developing Inclusive Finance became China s national strategy In 2015 China formulated the Plan for Promoting the Development of Inclusive Finance 2016-2020 In 2016 during its presidency of the Global Partnership for Financial Inclusion GPMI China proposed the issue of Digital Financial Inclusion and issued the G20 High level Principles for Digital Financial Inclusion at the G20 Hangzhou Summit in the same year Through policy guidance and active practice by the financial sector China has gradually formed a unique development model of inclusive finance and achieved remarkable successes Physical outlets service machines and online service channels have been improved and basic financial services have generally covered both urban and rural areas The financial services for rural households and MSMEs have improved significantly The efficiency and convenience of financial services have been significantly improved and the satisfaction of financial services has significantly increased China s experience in inclusive finance has been recognized by the international community In 2017 five cases from China were selected in the G20 report on Digital Financial Inclusion Emerging Policy Approaches
