Foreword U.S. Education Reform and National Security Joel I. Klein, Condoleezza Rice, Julia Levy, 2014-05-14 The United States failure to educate its students leaves them unprepared to compete and threatens the country's ability to thrive in a global economy and maintain its leadership role This report notes that while the United States invests more in K 12 public education than many other developed countries its students are ill prepared to compete with their global peers According to the results of the 2009 Program for International Student Assessment PISA an international assessment that measures the performance of 15 year olds in reading mathematics and science every three years U S students rank fourteenth in reading twenty fifth in math and seventeenth in science compared to students in other industrialized countries The lack of preparedness poses threats on five national security fronts economic growth and competitiveness physical safety intellectual property U S global awareness and U S unity and cohesion says the report Too many young people are not employable in an increasingly high skilled and global economy and too many are not qualified to join the military because they are physically unfit have criminal records or have an inadequate level of education The report proposes three overarching policy recommendations implement educational expectations and assessments in subjects vital to protecting national security make structural changes to provide students with good choices and launch a national security readiness audit to hold schools and policymakers accountable for results and to raise public awareness

Independent Task Force on Brazil, Samuel W. Bodman, Julia Sweig, James D. Wolfensohn, 2011 July 12 2011 Over the course of a generation Brazil has emerged as both a driver of growth in South America and as an active force in world politics A new Council on Foreign Relations CFR sponsored Independent Task Force report asserts that it is in the interest of the United States to understand Brazil as a complex international actor whose influence on the defining global issues of the day is only likely to increase Brazil currently ranks as the world's fifth largest landmass fifth largest population and expects to soon be ranked the fifth largest economy The report *Global Brazil and U S Brazil Relations* recommends that U S policymakers recognize Brazil's standing as a global actor treat its emergence as an opportunity for the United States and work with Brazil to develop complementary policies The Task Force is chaired by former secretary of energy Samuel W Bodman and former president of the World Bank James D Wolfensohn and directed by CFR Senior Fellow and Director for Latin America Studies and Director of the Global Brazil Initiative Julia E Sweig Recognizing Brazil's global role the report recommends that the Obama administration now fully endorse the country's bid for a seat as a permanent member of the United Nations Security Council UNSC It argues that a formal endorsement from the United States for Brazil would go far to overcome lingering suspicion within the Brazilian government that the U S commitment to a mature relationship between equals is largely rhetorical Domestically Brazil's inclusive growth has translated into a significant reduction of inequality an expansion of the middle class and a vibrant economy all framed within a democratic context Consequently Brazil has been able to use its economic bona fides to leverage a stronger position in the international commercial and diplomatic arena The report stresses the importance of regular communication between the presidents of both countries Cooperation between the United States and Brazil holds too much promise for miscommunication or inevitable disagreements to stand in the way of potential gains A mature working relationship means that the United States and Brazil can help each other advance mutual interests even without wholesale policy agreements between the two notes the report The Task Force further recommends that the U S Congress include an elimination of the

ethanol tariff in any bill regarding reform to the ethanol and biofuel tax credit regime the United States take the first step to waive visa requirements for Brazilians by immediately reviewing Brazil's criteria for participation in the Visa Waiver Program the U.S. State Department create an Office for Brazilian Affairs and the National Security Council NSC centralize its efforts under a NSC director for Brazil in order to better coordinate the current decentralized U.S. policy The bipartisan Task Force includes thirty distinguished experts on Brazil who represent a range of perspectives and backgrounds The report includes a number of additional views by Task Force members including one that notes We believe that a more gradual approach regarding Brazil's inclusion as a full UNSC member would likely have more success in navigating the diplomatic complexities presented by U.S. support for Brazil Another view asserts If the United States supports as the Obama administration has said it does leadership structures in international institutions that are more reflective of international realities it must support without qualifications Brazil's candidacy for the UNSC
