## **Fighting Racism In World War II:**

*Fighting Racism in World War II* Fred Stanton, 2009      *Fighting Racism in World War II* Cyril Lionel Robert James, George Breitman, Ed Keemer, 1980 A week by week account from 1939 to 1945 of efforts to advance the Black rights struggle in face of patriotic appeals to postpone resistance to lynch mob terror and racist discrimination until after US victory in World War II These struggles of a piece with rising anti imperialist battles in Africa Asia and the Americas helped lay the basis for the mass civil rights movement in the postwar decades Publisher s description      [Race and US Foreign Policy](#) Mark Ledwidge, 2012-02-06 African Americans analysis of and interest in foreign affairs represents a rich and dynamic legacy and this work provides a cutting edge insight into this neglected aspect of US foreign affairs In addition to extending the parameters of US foreign policy literature to include race and ethnicity the book documents case specific analyses of the evolutionary development of the African American foreign affairs network AAFAN Whilst the examination of race in regard to the construction of US foreign policy is significant this book also provides a cross disciplinary approach which utilises historical and political science methods to paint a more realistic appraisal of US foreign policy Including analysis of original archival evidence this theoretically informed work seeks to transcend the standard mono disciplinary approach which overestimates the separation between domestic and foreign affairs The unique approach of this work will add an important dimension to a newly emerging field and will be of interest to scholars in ethnic and racial studies American politics US foreign policy and US history      *American Women during World War II* Doris Weatherford, 2009-10-16 American Women during World War II documents the lives and stories of women who contributed directly to the war effort via official and semi official military organizations as well as the millions of women who worked in civilian defense industries ranging from aircraft maintenance to munitions manufacturing and much more It also illuminates how the war changed the lives of women in more traditional home front roles All women had to cope with rationing of basic household goods and most women volunteered in war related programs Other entries discuss institutional change as the war affected every aspect of life including as schools hospitals and even religion American Women during World War II provides a handy one volume collection of information and images suitable for any public or professional library      **Dancing Down the Barricades** Matthew Frye Jacobson, 2024-11-26 A deep dive into racial politics Hollywood and Black cultural struggles for liberation as reflected in the extraordinary life and times of Sammy Davis Jr Through the lens of Sammy Davis Jr s six decade career in show business from vaudeville to Vegas to Broadway Hollywood and network TV *Dancing Down the Barricades* examines the workings of race in American culture The title phrase holds two contradictory meanings regarding Davis s cultural politics Did he dance the barricades down as he liked to think or did he simply dance down them as his more radical critics would have it Davis was at once a pioneering barrier busting anti Jim Crow activist and someone who was widely associated with accommodationism and wannabe whiteness Historian Matthew Frye Jacobson attends to both threads analyzing how industry

norms productions scripts roles and audience expectations and responses were all framed by race against the backdrop of a changing America In the spirit of better understanding Davis s life and career *Dancing Down the Barricades* examines the complexities of his constraints freedoms and choices for what they reveal about Black history and American political culture

Anti-Racism as Communism Paul Gomberg,2024-01-11 In the United States there have been brilliant examples of anti racist struggle black soldiers in the Civil War coal miners of Alabama and especially the anti racist working class struggles led by the Communist Party Yet racism persists Jim Crow replaced racial slavery and mass incarceration has replaced Jim Crow Why Paul Gomberg argues that racism is functional for capitalism supplying low wage vulnerable labor and driving down conditions for all workers How can anti racists put an end to racist society Gomberg argues for race centered Marxism anti racism must lead working class struggle but racism will end only in a communist society that creates opportunity for all

**Black Americans in World War II** Arthur Williams, The entry of the United States into World War II in December 1941 presented Black Americans with a profound paradox that would define their wartime experience and shape the trajectory of the civil rights movement for decades to come While the nation mobilized to fight fascism and defend democracy abroad Black Americans faced systematic discrimination segregation and denial of basic civil rights at home creating what civil rights leaders termed the Double V campaign victory against fascism overseas and victory against racism in America This dual struggle would transform both the war effort and American society as Black Americans demanded that the democratic ideals for which they were asked to fight be extended to their own communities The pre war situation of Black Americans in 1941 reflected decades of institutionalized racism and legal segregation that had relegated the vast majority of African Americans to second class citizenship despite their constitutional rights and their contributions to American society The Jim Crow system in the South enforced strict racial segregation in all aspects of public life while informal but pervasive discrimination in the North limited economic opportunities housing options and social mobility for Black families seeking to escape the legacy of slavery and build better lives for their children The military services that Black Americans would be asked to join and serve in during World War II were themselves strictly segregated institutions that reflected and reinforced the racial hierarchies that governed American society The Army Navy Marine Corps and Army Air Forces all maintained separate and unequal facilities training programs and assignments for Black personnel while senior leadership positions remained exclusively white and Black units were typically assigned to non combat roles that were deemed appropriate for what many white officers considered their limited capabilities and reliability

*The Fight for Asian American Civil Rights* Sarah M Griffith, 2018-03-01 From the early 1900s liberal Protestants grafted social welfare work onto spiritual concerns on both sides of the Pacific Their goal to forge links between whites and Asians that countered anti Asian discrimination in the United States Their test uprooting racial hatreds that despite their efforts led to the shameful incarceration of Japanese Americans in World War II Sarah M Griffith draws on the experiences of liberal Protestants and the Young Men's Christian Association in particular to reveal the intellectual social and political forces that powered this movement Engaging a wealth of unexplored primary and secondary sources Griffith explores how YMCA leaders and their partners in the academy and distinct Asian American communities labored to mitigate racism The alliance's early work based in mainstream ideas of assimilation and integration ran aground on the Japanese exclusion law of 1924 Yet their vision of Christian internationalism and interracial cooperation maintained through the World War II internment trauma As Griffith shows liberal Protestants emerged from that dark time with a reenergized campaign to reshape Asian white relations in the postwar era

Anti-racism and Multiculturalism Mark Alleyne, 2017-09-08 All scholarly books are engagements with the existing literature often the published scholarly work of one established discipline This book originated with modest objectives to produce a work that would be in conversation with the literature of international

relations even though not of relevance only to that field The professed goal of international relations is international peace The ethical lens of pondering the best means to achieve world peace is used to filter media content in the field of multiculturalism and anti racism Although there has been little work on the impact of racial difference on the contours of contemporary international order there has been a sizeable body of research intended to abolish the credibility of pseudo scientific racism Such racism has provided the ideological foundation and justification for imperialism colonialism the holocaust and apartheid Race has been debunked as a myth Because of this racism the ideology bred of human classification according to racial difference has been found to be intellectually and morally barren But the need to communicate egalitarian and scientific sentiments remains The contributors to this volume consider five questions How does the literature on antiracism improve our understanding of conflict resolution How does the analysis of the media s role in racist and anti racist discourses improve the process of theorizing on hate and war propaganda How can research on anti racist discourse improve UN peacekeeping What implications does this subject have for theory building and cultural diversity How and why should the literature on anti racism expand research in international relations This is a unique worthwhile framework for cross disciplinary research in race and intellectual consensus and conflict Racism and Anti-Racism Today Amanuel Elias,2024-05-02 Acknowledging efforts to dismantle racism at multiple levels this book examines racism and anti racism as interconnected rather than isolated issues proposing a framework for effective anti racist policy and practice

**Encyclopedia of African American History, 1896 to the Present** Paul Finkelman,2009 Alphabetically arranged entries from A to C that explores significant events major persons organizations and political and social movements in African American history from 1896 to the twenty first century *Postwar Anti-Racism* Anthony Q. Hazard,2012-10-31 This book explores the discourse and practice of anti racism in the first two decades following World War II uncovering the ways scientific and cultural discourses of race continued to circulate in the early period of contemporary globalization through the lens on UNESCO **Reinhold Niebuhr against Racism** Ronald H. Stone,2024-10-18 This is Ronald Stone s fifth book on his mentor and friend Reinhold Niebuhr For the first time he analyzes all of Niebuhr s writings on race to correct the academic work of critics of Niebuhr who have ignored Niebuhr s creation of institutions fighting white supremacy in the South and who commented on Niebuhr while not reading his complete works It also publishes the text of his work as chairman of the mayor s committee on race in the strife torn Detroit of 1926 Stone argues that Niebuhr s work in total provides a complex theory for white and Black leaders to overcome white supremacy Niebuhr combines idealism and realism in the bulk of his work which is summarized in the two words of his well known social theory Christian Realism Both words need to be recognized to understand the depth of Niebuhr s synthesis As early as 1932 Niebuhr recognized the need for minorities to use economic power and Gandhian nonviolent strategies to overcome color or caste discrimination As late as the year of his death in 1971 he recommended to the Bicentennial Commission as one of three national priorities the

overcoming of the racial discrimination that threatened American democracy Racism as sin is central to his theology and the breaking of white supremacy is essential to his hundreds of essays and editorials against racial discrimination and to democratic theory As editor of Social Action in 1968 Stone published The Fate of the Negro in a Self Righteous Nation widely regarded as Niebuhr s best essay on the subject and marking Niebuhr s late analysis and his development between the two commission reports of 1926 and 1968 Another relatively unknown source of Niebuhr on racism is the seminar he taught from 1966 to 1968 It is reconstructed by Stone from the class notes of the seminar in which he served as class assistant To complete the circle James Cone asked Stone to lecture in his seminar the last three years he offered the seminar on Reinhold Niebuhr 106-2 Joint Committee Print: Annual Report on International Religious Freedom 2000, S. Prt. 106-61, November 2000 ,2001 *Medgar Evers* Michael Vinson Williams,2013-08-01 The sculptor Ed Hamilton presents information on his portrait bust of African American civil rights activist Medgar Wiley Evers 1925 1963 Evers was murdered on June 12 1963 He worked for the National Association for the Advancement of Colored People NAACP and campaigned to win equal rights for African Americans in the south The bust was cast in bronze at Bright Foundry in Louisville Kentucky General Mills Inc commissioned the bust **Theorizing Anti-Racism** Abigail Bakan,Enakshi Dua,2014-11-21 p Over the last few decades critical theory which examines issues of race and racism has flourished However most of this work falls on one side or the other of a theoretical divide between theory inspired by Marxist approaches to race and racism and that inspired by postcolonial and critical race theory Driven by the need to move beyond the divide the contributors to Theorizing Anti Racism present insightful essays that engage these two intellectual traditions with a focus on clarification and points of convergence The essays in Theorizing Anti Racism examine topics which range from reconsiderations of anti racism in the work of Marx and Foucault to examinations of the relationships among race class and the state that integrate both Marxist and critical race theory Drawing on the most constructive elements of Marxism and postcolonial and critical race theory this collection constitutes an important contribution to the advancement of anti racist theory **The ^ANew Conscientious Objection** Charles C. Moskos,John Whiteclay Chambers II,1993-04-08 Although conscientious objection is a long standing phenomenon it has only recently become a major factor affecting armed forces and society The only comprehensive comparative scholarly study of conscientious objection to military service this book examines the history of the practice in the Western world and state policies that have grown up in response to it It shows how the contemporary refusal to bear arms is likely to be secular and widespread rather than religious and marginal now including service people as seen in the 1991 War in the Persian Gulf as well as conscription resisters No account of civil military relations or peace movements in advanced industrial countries is complete without reference to conscientious objection and this book will be the standard text on the subject
