Fighting Spirit, Sheila Conroy Marianne Heron, 1993 The biography of an extraordinary woman and a fascinating account of social and labour history during the 1940s 1950s in Ireland      Women's Voices in Ireland Caitriona Clear, 2015-12-17 Women's Voices in Ireland examines the letters and problems sent in by women to two Irish women's magazines in the 1950s and 60s discussing them within their wider social and historical context In doing so it provides a unique insight into one of the few forums for female expression in Ireland during this period Although in these decades more Irish women than ever before participated in paid work trade unions and voluntary organizations their representation in politics and public and their workforce participation remained low Meanwhile women who came of age from the late 1950s experienced a freedom which their mothers and aunts married or single in the workplace or the home had never known Diary and letters pages and problem pages in Irish produced magazines in the 1950s and 60s enabled women from all walks of life to express their opinions and to seek guidance on the social changes they saw happening around them This book by examining these communications gives a new insight into the history of Irish women and also contributes to the ongoing debate about what women's magazines mean for women's history      **The Irish Women's Movement** Linda Connolly, 2001-11-12 This book provides a comprehensive analysis of the emergence consolidation and development of the Irish women's movement as a social movement in the course of the twentieth century It seeks to address several lacunae in Irish studies by illuminating the processes through which the movement and in particular networks of constituent organisations came to fruition as agencies of social change The central argument advanced is that when viewed historically the Irish women's movement is characterised by its interconnectedness and continuity the central tensions themes and organising strategies of the movement connects diverse organisations and constituencies over time and space This book will be essential reading for those interested in Irish studies sociology history women's studies and politics      *A Social History of Women in Ireland, 1870-1970* Rosemary Cullen Owens, 2005-10-25 A Social History of Women in Ireland is an important and overdue book that explores the role and status of women in Ireland from 1870 until 1970 looking at politics sociology marriage patterns religion education and work among other topics It provides a vital missing piece in the jigsaw of modern Irish history Using a combination of primary research and published works A Social History of Women in Ireland explores the role and status of women in Ireland It examines lifestyle options available to women during this period as well as providing an overview of the forces working for change within Irish society In bringing together a wide ranging portfolio of material A Social History of Women in Ireland 1870 1970 fills an important gap in the literature of the period by focusing on the experiences of Irish women a group so often overlooked in histories of revolutionary men and prominent politicians Crucial to a determination of the status of women throughout this period is an examination of the choices available regarding work marriage and emigration Rosemary Cullen Owens stresses at all times the importance of class and land ownership as key determinants for

women's lives A decrease in home industries allied to increasing mechanisation on the farm resulted in a contraction of labour opportunities for rural women With the establishment of an independent farming class the distinguishing criteria for status in rural Ireland became ownership of land in which single minded patriarchal figures dominated In this context the position of women declined and a society evolved with a high pattern of late age marriages large numbers of unwed sons and daughters and an accepted pattern of emigration In the cities and towns the condition of lower working class women was especially distressing for most of the period with particular problems regarding housing health and sanitation Through the work of campaigning activists equal educational and political rights were eventually attained From the early 1900s there was some expansion in female employment in shops offices and industry but domestic service remained a high source of employment For middle class women employment opportunities were limited and usually disappeared on marriage The civil service a major employer in an economy that was generally un dynamic and stagnant operated a bar on married women for much of the period Rosemary Cullen Owens not merely traces these injustices but also the campaigns fought to right them She locates these struggles in the wider social context in which they took place This important book restores balance to the narrative of modern Irish history changing the focus from key male political figures to society at large by unveiling the often forgotten story of the country's women over a tumultuous century of change In doing so Rosemary Cullen Owens enriches our understanding of Irish history from 1870 to 1970
