Islands Magazine ,2001-05 **Touring Pacific Cultures** Kalissa Alexeyeff,John Taylor,2016-12-15 Tourism is vital to the economies of most Pacific nations and as such is an important site for the meaningful production of shared and disputed cultural values and practices This is especially the case when tourism intersects with other important arenas for cultural production both directly and indirectly Touring Pacific Cultures captures the central importance of tourism to the visual material and performed cultures of the Pacific region In this volume we propose to explore new directions in understanding how culture is defined produced experienced and sustained through tourism related practices across that region We ask how is cultural value ownership performance and commodification negotiated and experienced in actual lived practice as it moves with people across the Pacific This collection is a welcome addition to tourism studies or perhaps we should say post or para tourism The essays bring out many facets and experiences too quickly bundled under a single label and focused exclusively on destinations visited by outsiders Tourism we see here actively involves many different populations societies and economies a range of local global regional engagements that can be both destructive and creative Western outsiders aren t the only ones on the move Unequal power neo colonial exploitation and capitalist commodification are very much part of the picture But so are desire adventure pleasure cultural reinvention and economic development The effect overall is an attitude of alert critical ambivalence with respect to a proliferating historical phenomenon A bumpy and rewarding ride James Clifford Professor Emeritus University of California Santa Cruz **Islands Magazine** ,2000-12
