indirectly affected by the impact of war during the course of the twentieth century and while the historical narratives of war of these nations are well known far less is understood about how small islands coped These islands often not nations in their own right but small outposts of other kingdoms countries and nations have been relegated to mere footnotes in history and heritage studies as interesting case studies or unimportant curiosities Yet for many of these small islands war had an enduring impact on their history memory intangible heritage and future cultural practices leaving a legacy that demanded some form of local response This is the first comprehensive volume dedicated to what the memories legacies and heritage of war in small islands can teach those who live outside them through closely related historical and contemporary case studies covering 20th and 21st century conflict across the globe The volume investigates a number of important questions Why and how is war memory so enduring in small islands Do factors such as population size island size isolation or geography have any impact Do close ties of kinship and group identity enable collective memories to shape identity and its resulting war related heritage This book contributes to heritage and memory studies and to conflict and historical archaeology by providing a globally wide ranging comparative assessment of small islands and their experiences of war Heritage of War in Small Island Territories is of relevance to students researchers heritage and tourism professionals local governments and NGOs **Fiji Islands Handbook** David Stanley,1993 A guide to the group of 322 islands at the crossroads of the Pacific known as the Fiji Group This handbook features information intended to be useful both to resort holidaymakers and island adventure trekkers It suggests uncrowded destinations and provides details on budget travel The Art of Clothing: A Pacific Experience Susan Kuchler,Graeme Were,2014-05-22 The Art of Clothing A Pacific Experience is a collection of richly textured and tremendously engaging empirical studies of cloth and clothing in colonial and post colonial Pacific contexts By challenging readers to reconsider the very nature of the materiality of clothing the editors productively situate this volume at the intersection of a number of ongoing interdisciplinary projects that are coalescing around an interest in cloth and clothing The book as a whole speaks lucidly to issues of current concern in a wide range of academic fields including cultural studies material culture Pacific history art history history of religions and museum studies *Extinction and Biogeography of Tropical Pacific Birds* David W. private parties around the capital Suva infatuated women whispered coup me baby in his presence It was so easy to overlook the enormity of what he had done in planning and implementing Fiji s first military coup to be seduced by celebrity captivated by the excitement of the moment and plead its inevitability as the final eruption of long simmering indigenous discontent A generation would pass before the consequences of the actions of Fiji s strongman of 1987 Sitiveni Rabuka would be fully appreciated but by then the die had been well and truly cast The major general did not live happily ever after No nirvana followed the assertion of indigenous rights If anything misadventure became his country s most enduring contemporary trait This is Fiji s very human story Levuka ,2001
