

Anatomy of a File Name

JOB NUMBER

MTC100 Corporate Trifold-8.5x11 r2v4 13-0531.pdf

This is your specific job number. It is how we keep all our projects organized — we are able to look up and find files easily which means less turnaround time for you! Each client gets assigned a specific three letter abbreviation that we use for each of your jobs. The three numbers are the individual job numbers. Each time we start a new project for you we create a job with new number.

JOB DESCRIPTION

MTC100 **Corporate Trifold** -8.5x11 r2v4 13-0531.pdf

What the job is!

SIZE

MTC100 Corporate Trifold- **8.5x11** r2v4 13-0531.pdf

Sometimes we include the size of the project, especially when dealing with ads, brochures, or any sign. This helps us keep things straight when there are multiple versions of one job.

ROUNDS & VERSIONS

MTC100 Corporate Trifold-8.5x11 **r2v4** 13-0531.pdf

When we are in the middle of a design development for a job we use r's and v's to distinguish between the rounds and versions. r2 means it is the second round of designs that we are sending to you. v4 is the fourth option within this round. When we finalize a design the file name changes to FINAL.

DATE

MTC100 Corporate Trifold-8.5x11 r2v4 **13-0531** .pdf

Adding the date is how we keep track of when versions were sent to you. Our date format is YEAR-MONTHDAY.

FILE TYPE

MTC100 Corporate Trifold-8.5x11 r2v4 13-0531 **.pdf**

This tells you what file type the file is. See our blog post [Logo Files: Which One Should I Use?](#) for more info about different file types.

BUT WAIT. THERE'S MORE...

OUT

We use this when we are sending the native files of a job to a vendor. When we do this, it is our process to convert all of the fonts into outlines so the vendor can open the file easily. The outlined version of a file gets an OUT at the end of the filename.

HR

HR (high-resolution) is used for PDF files. When we are going through the design development and we send you multiple PDFs, we usually send them at lower-resolution. It's easier and faster to email and usually the file has not been set up for print yet. When we set up the file for print (pre-flight) we will send you a high-resolution PDF which can be sent to the printer. Anytime there is a HR at the end of the file name it means the file is ready to be printed.

NO CROPS

When we send you a HR PDF it will include crops and bleeds if appropriate. Sometimes a client needs a version without crops and bleeds, when we send you this version we include the NO CROPS at the end of the file name.
