History, Historians and the Immigration Debate Eureka Henrich, Julian M. Simpson, 2018-10-13 This book is a response to the binary thinking and misuse of history that characterize contemporary immigration debates Subverting the traditional injunction directed at migrants to go back to where they came from it highlights the importance of the past to contemporary discussions around migration It argues that historians have a significant contribution to make in this respect and shows how this can be done with chapters from scholars in Asia Europe Australasia and North America Through their work on global transnational and national histories of migration an alternative view emerges one that complicates our understanding of 21st century migration and reasserts movement as a central dimension of the human condition History Historians and the Immigration Debate makes the case for historians to assert themselves more confidently as expert commentators offering a reflection on how we write migration history today and the forms it might take in the future
