Filipino Images Niels Mulder,1998      **In Pursuit of Progress** Hannah C. M. Bulloch,2017-01-31 How are meta narratives of development entangled in people s identities and life trajectories How do they inhabit people s histories their understandings of their place in the world and their dreams for the future The idea of development has been deconstructed and scrutinized as a Western metaphor ordering global difference and as a banner under which diverse schemes for societal improvement find legitimacy and common purpose But how is development assimilated into the worldviews of development s subjects How does it reshape identities and in what ways is it reshaped in the process Drawing on a decade of ethnographic research on the Philippine island of Siquijor *In Pursuit of Progress* explores myths meanings and practices of development and its counterparts progress and modernization It does so not only by considering development as planned community wide interventions aimed at society wide improvements in living standards but by recognizing that as a cognitive tool for organizing relationships between people development is personal For Siquijodnon development or kalamboan is also a process of self transformation concerning changes in knowledge body roles and cultural orientation Emblems as diverse as skin color Christianity infant formula and infrastructure make statements about development on Siquijor Kalamboan is bound up with social mobility consumption and status but so too is it imbued with ideals of the simple life a life of austerity and attention to social relationships and with other assumptions about how people should live Author Hannah Bulloch analyzes development not only as a prescription for material aspiration but also for moral endeavor *In Pursuit of Progress* offers rich ethnographic insights into contemporary Visayan culture engaging with questions of enduring significance in Philippines studies including livelihood change colonial mentality everyday politics and moral economy It will contribute to debates in anthropology sociology and development studies regarding the ways in which discourses of development act upon local and global power relations      **Culture and Customs of the Philippines** Paul A. Rodell,2002 A stand out one stop resource on Philippine culture and customs      **Spirited Politics** Andrew C. Willford,Kenneth M. George,2018-05-31 The essays in *Spirited Politics* throw light on predicaments that spring from the intersection of religion ethnicity and nationalism in contemporary Southeast Asian public life Covering material from Indonesia Malaysia Thailand and the Philippines the contributors explore the calamities and ironies of Southeast Asian identity politics examining the ways in which religion and politics are made to serve each other      Inside Thai Society Niels Mulder,2000 This book aims to look behind the smiles and appearances in order to discover those regularities and expectations that pervade everyday life To that purpose it identifies some of the basic ideas that give meaning and order to existence and that make life in Thai society eminently reasonable

BOOK JACKET      Asian Forms of the Nation Stein Tønnesson,Hans Antlov,2013-10-23 The general tendency among theorists in nationalism and national identity has been to assume that the modernization process in Asia and Africa is a kind of distorted reflection of a Western precedent Asian forms of the nation have rarely been seen as independent alternative

models Among today's leading theoreticians there is a growing tendency to take Asia seriously and to include Asian examples in the general discussion The aim of the present collection is to build on and reinforce this tendency It does not postulate any specifically Asian form of the nation as opposed to a Western one Rather it seeks to demonstrate that in Asia as well as in Europe each nation forms a unique amalgam which can be compared fruitfully with others History culture and geography have posed various kinds of limits to what can be imagined as Benedict Anderson puts it The relationship between geographical space and national construction is explored in depth here **Fishing for Fairness** Michael

Fabinyi, 2012-01-01 FISHING FOR FAIRNESS develops an explicitly cultural perspective on environmental politics in the Philippines by analysing the responses of fishers to marine resource regulations In the resource frontier of the Calamianes Islands fishing conservation and tourism provide the context where competing visions of how to engage with marine resources are played out The book draws on data from ethnographic fieldwork with fishers government and NGO officials fish traders and tourism operators to show how the strategic responses of fishers to management initiatives are couched within particular cultural idioms Tapping into broader notions of morality in the Philippines fishers express a discourse that emphasises their poverty and the obligations of the wealthy to treat them with fairness By deploying this discourse fishers are able to reframe what are on the surface questions of environmental management into issues about poverty within particular social relationships By using a cultural political ecology framework to analyse fishers responses to regulation the book emphasises the distinctive ways in which marginalised people in the Philippines resist and reframe resource management initiatives FISHING FOR FAIRNESS will appeal to both academics and policy makers interested in marine resource management political ecology anthropology and development studies particularly throughout the Asia Pacific

**The Loves of Rizal and Other Essays on Philippine History, Art, and Public Policy** Pablo S. Trillana, 2000

**Philippine Studies**, 2007 **Philippines in Pictures** Colleen A. Sexton, 2006-01-01 Describes the social cultural and economic history of the Philippines Philippine Sociological Review, 2001 Materializing Thailand Penny Van Esterik, 2020-05-28 Thailand has become well known throughout the world for wonderful cuisine great package holidays sumptuous temples and textiles Noticeably absent from glossy tourist brochures but equally well known throughout the Western world is Thailand's seedier side the world of child exploitation rampant prostitution and AIDS Thailand maintains its appeal by slipping the ugly and painful out of sight and by promoting women as exotic visual icons through beauty contests state rituals and the sex trade This book explores the construction of gender in Thailand and in particular the role Bangkok plays in establishing gender relations for the whole of the country It examines the historical and cultural processes underlying Thai public culture including historical theme parks The author demonstrates how the materiality of the Thai world shapes gender relations and how Buddhism discourages essentialisms including fixed binary gender identities Throughout the book appearances are shown to be critically important and the essentialism of gender is maintained through

display public presentations and everyday material practices Anyone wishing to understand the complexity of Thailand will find this book provides a highly readable and insightful analysis **Inside Southeast Asia** Niels Mulder,2000 Written for both general readers and specialists this book explores how modern urban Southeast Asians view and manage their social life By comparing the ways they live with their religious representations with intimate and more distant others and with their rapidly changing environment the author demonstrates the marked similarities in the perception of individual and society in three civilizations along the inner littoral of Southeast Asia irrespective of the great religious diversity that appears to characterize the region **Tales of the Supernatural** Dana Ramos Herrera,2006 A Sociotheological Approach to Catholic Social Teaching Vivencio O. Ballano,2022-10-31 This book introduces Catholic social teaching CST and its teaching on the common good to the reader and applies them in the realm of public health to critically analyze the major global issues of COVID 19 that undermine public interest It uses the sociotheological approach that combines the moral principles of CST and the holistic analysis of modern sociology and also utilizes the secondary literature as the main source of textual data Specifically it investigates the corporate moral irresponsibility and some unethical business practices of Big Pharma in the sale and distribution of its anti COVID vaccines and medicines the injustice in the inequitable global vaccine distribution the weakening of the United States Congress s legislative regulation against the pharmaceutical industry s overpricing and profiteering the inadequacy of the World Health Organization s WHO law enforcement system against corruption and the lack of social monitoring in the current public health surveillance system to safeguard the public good from corporate fraud and white collar crime This book highlights the contribution of sociology in providing the empirical foundation of CST s moral analysis and in crafting appropriate Catholic social action during the pandemic It is hoped that through this book secular scholars social scientists religious leaders moral theologians religious educators and Catholic lay leaders would be more appreciative of the sociotheological approach to understanding religion and COVID 19 This book brings into dialogue two bodies of literature documents of Catholic social teaching and modern sociology and its core thinkers and texts The author does especially well to describe how taking the sociotheological turn will benefit the credibility and dissemination of Catholic social thought Rev Fr Thomas Massaro S J Professor of Moral Theology Jesuit School of Theology Santa Clara University Berkeley California **The Filipino Primitive** Sarita Echavez See,2017-11-14 Nowhere can we appreciate so easily the intertwined nature of the triple forces of knowledge accumulation capital colonial and racial than in the imperial museum where the objects of accumulation remain materially visibly preserved Sarita See maintains that it is this material collection of artifacts associated with the racial colonial primitive that forms the foundation of American knowledge production The Filipino Primitive takes Karl Marx s concept of primitive accumulation usually conceived of as an economic process for the acquisition of land and the extraction of labor and argues that we also must understand it as a project of knowledge accumulation Taking us through the Philippine collections at the University of Michigan Natural History Museum and the

Frank Murphy Memorial Museum also in Michigan See reveals these exhibits as both allegory and real case of the primitive accumulation subtending imperial American knowledge just as the extraction of Filipino labor contributes to American capitalist colonialism With this understanding of the Filipino foundations of the development of an American accumulative drive toward power and knowledge we can appreciate the value of Filipino American cultural producers like Carlos Bulosan Stephanie Syjuco and Ma Yi Theater Company who have created incisive parodies of an accumulative epistemology even as they articulate powerful alternative anti accumulative social ecologies *Philippine national bibliography* ,2000 A  
History of the Inarticulate Luis Camara Dery,2001 *Saint Louis University Research Journal* ,2000 **Philippine Digital Cultures** Cheryll Ruth Soriano,Earvin Charles Cabalquinto,2025-10-01 Social media platforms have been pivotal in redefining the conduct of contemporary society Amid the proliferation of a range of new and ubiquitous online platforms YouTube a video based platform remains a key driver in the democratisation of creative playful vernacular intimate as well as political expressions As a critical node of contemporary communication and digital cultures its steady uptake and appropriation in a social media savvy nation such as the Philippines requires a critical examination of its role in the continued reconstruction of identities communities and broader social institutions This book closely analyses the diverse content and practices of amateur Filipino YouTubers exposing and problematising the dynamics of brokering the contested aspirational logics of beauty and selfhood interracial relationships world class labour and progressive governance in a digital sphere Ultimately YouTube and Brokerage Dynamics in Philippine Digital Cultures offers a fresh compelling and nuanced account of YouTube as an important site for the mediation of culture economy and politics in Philippine postcolonial modernity amid rapid economic globalisation and digitalisation
