

## ***Sergei Eisenstein and the Montage***

The Russian filmmaker, Sergei Eisenstein (1898-1948), is considered one of the first truly important narrative filmmakers, and is also credited (incorrectly) with inventing the film montage, or sequencing of specifically timed edits for emotional impact.<sup>1</sup> Many of Eisenstein's films have survived and are still studied in every film program, not only because they were early examples of editing for emotional impact and narrative control, but also because his work is still quite astounding, evocative, and emotionally compelling.

Some of Eisenstein's most famous film sequences have been recreated, nearly shot for shot by modern directors, as an overt act of homage. But these recreated sequences, using Eisenstein's proven techniques in montage, still create the same intended sense of tension, suspense and dread when viewed by audiences who are unaware of the homage and have never seen any of Eisenstein's films.<sup>2</sup>

Eisenstein important not only as a filmmaker, but as a writer and theorist who practiced his trade while also working out the theories that informed it. Because film is such an insistently visual medium, it doesn't often attract practitioners who are also excellent writers or dedicated theorists. Therefore, Eisenstein is important because he was an innovator in the medium itself, but was also the author of a number of insightful manifestos and poetics that influenced generations of filmmakers nearly as much as the images he captured on film.

---

<sup>1</sup> I still have to find the correct citation for first use of "montage" both as term and as technique. If I can't find it, the sentence should be re-written to reflect that Eisenstein is best known for perfecting and experimenting with different montage techniques, even though he didn't actually "invent" the process.

<sup>2</sup> For a very clear (and almost cheesy) example of this, see the Odessa Steps sequence with the baby carriage in Eisenstein's *Battleship Potemkin* (1925), and then see the courthouse step sequence with the baby carriage in Brian DePalma's version of *The Untouchables* (1987).
