Film and the German Left in the Weimar Republic Bruce Murray,2010-07-05 The Weimar Republic of Germany covering the post World War I period of civil and governmental strife witnessed a great struggle among a variety of ideologies a struggle for which the arts provided one important arena Leftist individuals and organizations critiqued mainstream art production and attempted to counter what they perceived as its conservative to reactionary influence on public opinion In this groundbreaking study Bruce Murray focuses on the leftist counter current in Weimar cinema offering an alternative critical approach to the traditional one of close readings of the classical films Beginning with a brief review of pre Weimar cinema 1896 1918 he analyzes the film activity of the Social Democratic Party the German Communists and independent leftists in the Weimar era Leftist filmmakers journalists and commentators who in many cases contributed significantly to marginal leftist as well as mainstream cinema have until now received little scholarly attention Drawing on exhaustive archival research and personal interviews Murray shows how the plurality of aesthetic models represented in the work of individuals who participated in leftist experiments with cinema in the 1920S collapsed as Germany underwent the transition from parliamentary democracy

to fascist dictatorship He suggests that leftists shared responsibility for that collapse and asserts the value of such insights for those who contemplate alternatives to institutional forms of cinematic discourse today *Metamorphoses of the Vampire in Literature and Film* Erik Butler, 2010 For the last three hundred years fictions of the vampire have fed off anxieties about cultural continuity Though commonly represented as a parasitic aggressor from without the vampire is in fact a native of Europe and its metamorphoses to quote Baudelaire a distorted image of social transformation Because the vampire grows strong whenever and wherever traditions weaken its representations have multiplied with every political economic and technological revolution from the eighteenth century on Today in the age of globalization vampire fictions are more virulent than ever and the monster enjoys hunting grounds as vast as the international market *Metamorphoses of the Vampire* explains why representations of vampirism began in the eighteenth century flourished in the nineteenth and came to eclipse nearly all other forms of monstrosity in the early twentieth century Many of the works by French and German authors discussed here have never been presented to students and scholars in the English speaking world While there are many excellent studies that examine Victorian vampires the undead in cinema contemporary vampire fictions and the vampire in folklore until now no work has attempted to account for the unifying logic that underlies the vampire's many and often apparently contradictory forms Erik Butler holds a PhD from Yale University and has taught at Emory University and Swarthmore College His publications include *The Bellum Gramaticale* and *The Rise of European Literature* 2010 and a translation with commentary of *Regrowth* Vidervuks by the Soviet Jewish author Der Nister 2011

The GDR (RLE: German Politics) David Childs, 2014-12-17 Widely praised in its first edition the second edition of *The GDR* was updated to cover events through the spring of 1988 examining in particular the impact of new leadership in both Bonn and Moscow and of the changing world economy on the prospects of the GDR

DEFA at the

Crossroads of East German and International Film Culture Marc Silberman, Henning Wrage, 2014-05-21 Motion picture production distribution exhibition and reception has always been a transnational phenomenon yet East Germany situated at the edge of the post war Iron Curtain separated by a boundary that became materialized in the Berlin Wall in 1961 resembles nothing if not an island a protected space where film production developed under the protection of government subsidy and ideological purity This volume proposes on the contrary that the GDR cinema was never just a monologue Rather its media landscape was characterized by constant dialogue if not competition with both the capitalist West and socialist East These thirteen essays reshape DEFA cinema studies by exploring international networks identifying lines of influence beyond national boundaries and recognizing genre qualities that surpass the temporal and spatial confines The international team of film specialists present detailed analyses of over fifty films including fiction features adaptations of literary classics children s films documentaries and examples from genres such as music sci fi Westerns and crime films With contributions by Se n Allan Hunter Bivens Benita Blessing Barton Byg Jaimey Fisher Sabine Hake Nick Hodgkin Manuel K ppen Anke Pinkert Larson Powell Brad Prager Marc Silberman Stefan Soldovieri and Henning Wrage **The Oxford Handbook of German Politics** Klaus Larres, Holger Moroff, Ruth Wittlinger, 2022-07-18 Few countries have caused or experienced more calamities in the 20th century than Germany The country emerged from the Cold War as a newly united and sovereign state eventually becoming Europe s indispensable partner for all major domestic and foreign policy initiatives This handbook provides a comprehensive overview of some of the major issues of German domestic politics economics foreign policy and culture by leading experts in their respective fields This book serves primarily as a reference work on Germany for scholars and an interested public but through this broader lens it also provides a magnifying glass of global developments which are challenging and transforming the modern state The growing importance of Germany as a political actor and economic partner makes this endeavor all the more timely and pertinent from a German European and global perspective *Framing the Past* Bruce Arthur Murray, Chris Wickham, 1992 Eleven essays emerging from an October 1988 symposium titled Concepts of Cinema in German History held at the U of Illinois at Chicago explore the complex network of social political and religious institution that have influenced the historiography of German cinema and television Annotation copyright by Book News Inc Portland OR The Cinema's Third Machine Sabine Hake, 1993-01-01 The improvements in the technology artistry and distribution of motion pictures coincided with the traumas of modern Germany It is hardly to be wondered that filmmakers frequently turned their cameras on Germany s social and political problems that propagandists regularly sought to manipulate them that entrepreneurs tried to exploit them and that German thinkers brooded upon the relationship between German society politics and the films that represented them all From these tangled motives a rich discourse on film emerged that paralleled or anticipated discourses in the other film centers of the world The Cinema s Third Machine reproduces the diversity of perspectives and the intensity of controversies of early German film within the broad context of

German social and political history from the aesthetic rapture of the first years to the institutionalization of film by the national socialist state. Many texts have been rediscovered and are now presented to modern scholars for the first time. Hake treats all aspects of the medium: production, promotion, education, journalism, aesthetics, and political activism, following throughout the various forms criticism assumed.

European Film Theory and Cinema Ian Aitken, 2001-08

European Film Theory and Cinema explores the major film theories and movements within European cinema since the early 1900s. An original and critically astute study, it considers film theory within the context of the intellectual climate of the last two centuries. Ian Aitken focuses particularly on the two major traditions that dominate European film theory and cinema: the intuitionist/modernist and realist tradition and the post-Saussurian tradition. The first originates in a philosophical lineage that encompasses German idealist philosophy, romanticism, phenomenology, and the Frankfurt School. Early intuitionist/modernist film culture and later theories and practices of cinematic realism are shown to be part of one continuous tradition. The post-Saussurian tradition includes semiotics, structuralism, and post-structuralism.
