Value Ivo de Gennaro,2012-01-06 Value is arguably one of the key concepts of the globalized world In this world to be is to be or have a value while all thinking and implementing has the form of valuing and evaluating Thanks to their operative expediency both the concept of value and thinking through values appear as sufficient and such as not to need any interrogation as to their provenance and implications The essays of this volume on the other hand provide insights precisely in these aspects by presenting on the one hand classical philosophical sources on value and on the other readings that show how the concept of value shapes our manner of thinking in pivotal issues and domains of economics culture and knowledge

Ficino, Pico and Savonarola Amos Edelheit,2008 This book presents a detailed account of Ficino's De Christiana religione and of Pico's Apologia in the context of the evolution of a humanist theology Focusing on the relations between humanism theology and politics it concludes with the Savonarola affair

Vico, Hegel and the Making of Modern Italy Alessandro De Arcangelis,2025-06-26 Embracing a transnational approach to 19th century Italian intellectual history this book examines the encounter and amalgamation of local and foreign philosophical traditions chiefly represented by the thought of Giambattista Vico and Georg Wilhelm Friedrich Hegel showcasing their contribution to shaping a historical mindset that guided and legitimised Italians experiences of political change Taking a revisionist stance the author challenges the prevailing view that Italian thinkers passively adopted foreign ideas Instead they engaged critically with them questioning their conceptual foundations and applicability to Italy's political landscape Vico Hegel and the Making of Modern Italy reveals that Italian intellectuals sought cultural and political renewal at both local and European levels not through assimilation but through steadfast allegiance to a local strand of political thought inspired by Vico's humanist historicism The book ultimately explores how philosophical thought empowered Italian intellectuals to navigate the uncertainties drama and energy of the Risorgimento underscoring the enduring significance of philosophical knowledge in shaping Italy's political trajectory
