Fin De Siecle Culture Of Adolescence:

The Fin-de-siècle Culture of Adolescence John Neubauer, 1992 Preoccupation with adolescence was one of the hallmarks of European culture at the turn of the century In this absorbing book John Neubauer examines the representation of adolescents in the literature visual arts psychology and psychoanalytic theory of this period and he considers the social institutions and youth movements that were formed to accommodate them Neubauer argues that the depiction of adolescence in art and literature did not merely reflect its emergence as a middle class phenomenon of industrial societies but helped to shape its social construction as well Neubauer s discussion of adolescents in literature begins with the inner lives of some adolescent protagonists Stephen Dedalus Tonio Kroger and Young Torless as told by adult narrators His focus then becomes wider moving to the adolescent as viewed by a peer narrator to the adolescent s cliques and gangs and to the gardens schools and streets in which the narratives of adolescence are set In the second half of the book he treats nonliterary subjects Neubauer considers portrayals of adolescents by such artists as Munch Kirchner Heckel Kokoschka and Schiele He discusses the narrative construction of Freud s case history of Dora and the problems of female adolescence in Horney s Adolescent Diaries as well as questions of gender and homosexual identity in turn of the century psychological theories of adolescence The final chapters consider adolescence in school church the German Wandervogel and the Boy Scouts focusing on the literary and rhetorical means involved in institutionalizing adolescence

Adolescent Girlhood and Literary Culture at the Fin de Siècle Beth Rodgers, 2016-10-06 This book examines the construction of adolescent girlhood across a range of genres in the closing decades of the nineteenth century It argues that there was a preoccupation with defining characterising and naming adolescent girlhood at the fin de si cle These daughters of today juvenile spinsters and modern girls as the press variously termed them occupying a borderland between childhood and womanhood were seen to be inextricably connected to late nineteenth century modernity they were the products of changes taking place in education and employment and of the challenge to traditional conceptions of femininity presented by the Woman Question The author argues that the shifting nature of the modern adolescent girl made her a malleable cultural figure and a meeting point for many of the prevalent debates associated with fin de si cle society By juxtaposing diverse material from children s books and girls magazines to New Woman novels and psychological studies the author contextualises adolescent girlhood as a distinct but complex cultural category at the end of the nineteenth century

Children's Literature and the Fin de Siècle Roderick McGillis, 2003-11-30 The close of a century invites both retrospection and prognostication As a period of transition it also brings a sense of uncertainty finality and apocalypticism These feelings stem from various events such as political turmoil scientific advancements and social change As might be expected literature reflects such changes and the feelings they engender But perhaps more surprisingly children s literature is especially sensitive to such matters and fiction for children often struggles with dark and unpleasant issues This book examines fin de si cle tensions in 19th and 20th century children s

Juvenile Nation Stephanie Olsen, 2014-01-16 In the first five months of the Great War one million men volunteered to fight Yet by the end of 1915 the British government realized that conscription would be required Why did so many enlist and conversely why so few Focusing on analyses of widely felt emotions related to moral and domestic duty Juvenile Nation broaches these questions in new ways Juvenile Nation examines how religious and secular youth groups the juvenile periodical press and a burgeoning new group of child psychologists social workers and other experts affected society's perception of a new problem character the adolescent By what means should this character be turned into a fit citizen Considering qualities such as loyalty character temperance manliness fatherhood and piety Stephanie Olsen discusses the idea of an informal education focused on building character through emotional control and how this education was seen as key to shaping the future citizenry of Britain and the Empire Juvenile Nation recasts the militarism of the 1880s onwards as part of an emotional outpouring based on association to family to community and to Christian cultural continuity Significantly the same emotional responses explain why so many men turned away from active militarism with duty to family and community perhaps thought to have been best carried out at home By linking the historical study of the emotions with an examination of the individual's place in society Olsen provides an important new insight on how a generation of young men was formed

King, Alan Apter, 2003-08-28 In an epoch when rates of death and illness among the young have steadily decreased in the face of medical progress the persistently high rates of youth suicide and suicide attempts around the world remain a tragic irony and a challenge to both our clinical practice and theoretical understanding How can these deaths be prevented Can they be anticipated Are there perceptible patterns of risk and vulnerability What role do families gender culture and biology play What are the treatments for and outcomes of suicide attempters To address these questions experts from around the world in all areas of psychiatry from epidemiology neurobiology genetics and psychotherapy have

productions Beginning with the watershed Victorian era From Alice to Algernon The Evolution of Child Consciousness in the Novel examines the creative transformation these theories underwent as they filtered through the modern novel especially those that examined the mind of the child By examining the connection between authors and trends in child psychology author Holly Blackford explains why many modern novels began to focus on child cognition as a site for intellectual and artistic exploration In each chapter of this book select novels of the late nineteenth or twentieth century are paired with a specific moment or movement from the history of developmental psychology Novels such as Mark Twain's Huckleberry Finn and Henry James's What Maisie Knew or Radclyffe Hall's less canonical The Well of Loneliness and even Mark Haddon's The Curious Incident of the Dog in the Night Time showcase major questions about human epistemology through their child characters From Lewis Carroll's Alice and her looking glass to Richard Wright's Bigger Thomas and the murder of Mary Dalton to the chaotic Neverland symbolizing the unmappable child's brain a literary tradition of child consciousness has emerged as an experimental site for the unstable concepts of evolution civilization and development By situating literature about children within concurrent psychological discourses Blackford demonstrates how the modern novel contributed to the world's understanding of the boundless wonders and discernible limits of child consciousness Making a New World Tom Avermaete, 2012 A heavily illustrated study of the foundations and working mechanisms of modern communities

Unseasonable Youth Jed Esty, 2011-11-04 Unseasonable Youth examines a range of modernist era fictions that cast doubt on the ideology of progress through the figure of stunted or endless adolescence Novels of youth by Oscar Wilde Olive Schreiner Rudyard Kipling Joseph Conrad H G Wells James Joyce Virginia Woolf Jean Rhys and Elizabeth Bowen disrupt the inherited conventions of the bildungsroman in order to criticize bourgeois values and to reinvent the biographical plot but also to explore the contradictions inherent in mainstream developmental discourses of self nation and empire The intertwined tropes of frozen youth and uneven development as motifs of failed progress play a crucial role in the emergence of dilatory modernist style and in the reimagination of colonial space at the fin de siècle The genre bending logic of uneven development never wholly absent from the coming of age novel takes on a new and more intense form in modernism as it fixes its broken allegory to the problem of colonial development In novels of unseasonable youth the nineteenth century idea of world progress comes up against stubborn signs of underdevelopment and uneven development just at the same moment that post Darwinian racial sciences and quasi Freudian sexological discourses lend greater influence to the idea that certain forms of human difference cannot be mitigated by civilizing or developmental forces In this historical context the temporal meaning and social vocation of the bildungsroman undergo a comprehensive shift as the history of the novel indexes the gradual displacement of historical progressive thinking by anthropological structural thinking in the Age of Empire

Unseasonable Youth Joshua Esty, 2012 The bildungsroman with its elegant arc charting a protagonist's progression from childhood to maturity is one of literature's most familiar and enduring genres Yet in the late nineteenth and early

twentieth centuries a series of novels appeared that began to upend this classical formula Rather than moving smoothly into adulthood the characters in these new coming of age fictions seemed to veer off course into a state of suspended or stunted adolescence Modernist era novels of unseasonable youth disrupt the inherited conventions of the bildungsroman in order to criticize bourgeois values and to reinvent the biographical plot but also to explore the contradictions inherent in developmental discourses of self nation and empire Narratives of world progress run up against stubborn developmental obstacles just at the same moment that post Darwinian racial sciences and Freudian sexological theories were lending influence to the idea that some forms of human difference cannot be mitigated by civilizing forces In this context the modernist bildungsroman can be seen as narrating the gradual displacement of historical progressive thinking by anthropological structural thinking in the Age of Empire Jed Esty follows this fascinating line of argument through analysis of novels by Kipling Wilde Conrad Joyce Woolf Rhys and others to reveal how intertwined tropes of frozen youth and uneven development as motifs of failed progress play a crucial role in the emergence of dilatory modernist style and in the re imagination of colonial space at the fin de siecle

Seduction of Youth Javier Samper Vendrell, 2020-04-06 The Seduction of Youth offers a new perspective on the history of the Weimar Republic by exploring the intersection between the homosexual movement print culture and homophobic fears about the seduction of young boys

Transforming Girls Julie Pfeiffer, 2021-09-30 Transforming Girls The Work of Nineteenth Century Adolescence explores the paradox of the nineteenth century girls book On the one hand early novels for adolescent girls rely on gender binaries and suggest that girls must accommodate and support a patriarchal framework to be happy On the other they provide access to imagined worlds in which teens are at the center The early girls book frames female adolescence as an opportunity for productive investment in the self This is a space where mentors who trust themselves the education they provide and the girl s essentially good nature neutralize the girl s own anxieties about maturity These mid nineteenth century novels focus on female adolescence as a social category in unexpected ways They draw not on a twentieth century model of the alienated adolescent but on a model of collaborative growth The purpose of these novels is to approach adolescence a category that continues to engage and perplex us from another perspective one in which fluid identity and the deliberate construction of a self are celebrated They provide alternatives to cultural beliefs about what it was like to be a white middle class girl in the nineteenth century and challenge the assumption that the evolution of the girls book is always a movement towards less sexist less restrictive images of girls Drawing on forgotten bestsellers in the United States and Germany where this genre is referred to as Backfischliteratur Transforming Girls offers insightful readings that call scholars to reexamine the history of the girls book It also outlines an alternate model for imagining adolescence and supporting adolescent girls The awkward adolescent girl so popular in mid nineteenth century fiction for girls remains a valuable resource for understanding contemporary girls and stories about them
