Final Entries, 1945 Joseph Goebbels, 1978 **The War Aims and Strategies of Adolf Hitler** Oscar Pinkus, 2005-06-29 Many have commented upon Hitler's inexplicable behavior during World War II. He failed to invade England; he neglected his air force; he engaged enemies on multiple fronts. Viewed in terms of Germany's struggle against the West, these and other actions made little sense. In truth, however, the war against Western powers had little to do with Hitler's grand plan to conquer Russia and lands to the east of Germany, eradicate or enslave their populations, and create a vast Teutonic empire. In light of this goal, Hitler's actions were consistent throughout. In line with his dictum of All or Nothing, once Hitler failed to defeat Russia in December 1941, he conducted the rest of the war with the sole purpose of inflicting maximum bloodshed and desolation, including upon Germany itself. Weakened, sensing defeat, he knew he was a drowning man and he was determined to take friend and foe alike down with him. This evaluation of Hitler's objectives in World War II expands upon a theory gaining prominence among historians: Hitler's true motive was a crusade against the East, and he had little interest in waging war with England, much less the United States. It examines the different nature of the war on the Eastern and Western fronts, the disparate treatment afforded the two groups of POWs and civilians, and Hitler's scorched earth policy adopted after his primary objective proved beyond his grasp. In poignant, painful detail, it recreates the Russians' devastating four-year struggle against Germany, which went much further towards ensuring its defeat than any of the comparatively belated Western efforts. The Holocaust National Jewish Resource Center (U.S.), 1985 **Nazi History and the Holocaust**, 1999 **The New York Times Book Review**, 1978 **Goebbels** Ralf Georg Reuth, 1993 Drawn on eyewitness accounts, letters, and diaries and archival material, this is the story of a complex man who was of all the Nazis the most zealous advocate of the extermination of the Jews. Index, photographs. Translated by Krishna Winston **Library of Congress Information Bulletin**, 1980 Books for College Libraries: History Association of College and Research Libraries, 1988 This third edition lists 50,000 titles that form the foundation of an undergraduate library's collection. *Subject Catalog*, 1978 Library of Congress, 1978 **Subject Catalog** Library of Congress, **Weekly Record**, 1978 *Political Leaders and Military Figures of the Second World War* Steven D. Chambers, 1996 This bibliography is a compilation of approximately 3,500 English language works by and about the major political leaders and military figures of the Second World War. The bibliography is intended to aid librarians in answering reference questions concerning what works are available on a certain individual, to aid graduate and undergraduate students in researching potential historical topics, and to aid the general reader in choosing a good biography of a particular individual. Library of Congress Catalog Library of Congress, 1970 **Etc**, 1979 **Final Entries, 1945** Joseph Goebbels, Hugh Redwald Trevor-Roper, 1979 The shocking and intimate journals of one of Hitler's highest ministers. *Final Entries, 1945* Joseph Goebbels, 1978 Diaries of Joseph Goebbels, second in command to Adolf Hitler **An Annotated Bibliography of Diaries Printed in English**

Christopher Sampson Handley,1997 **National Union Catalog** ,1978 **National union catalog, 1978** Library of Congress,1978 Adolf Hitler and the Nazi Epoch Paul Madden,1998-11-05 Although bibliographies do exist that concern themselves with the Nazi period in Germany and the Third Reich no one has yet attempted a complete reference source With the publication of Adolf Hitler and the Nazi Epoch there is finally a complete comprehensive reference source designed to identify all English language works that relate to the Nazis and the Third Reich Included in this bibliography are monographs biographies pamphlets and journal articles as well as more general histories of the time period The material is subdivided by subject and organized into eighteen chapters making this large bibliography simple to use The chapter subjects contain a broad range of data Included are chapters on Adolf Hitler himself the origins of national socialism religion and the Nazis articles about education and academics in Germany law and government under the Third Reich the SS and concentration camps everyday life in Nazi Germany foreign policy and more The range of data collected in this one reference location is astounding and should provide a nearly inexhaustible starting point for those scholars and students interested in the history of one of the most controversial political parties and governments of the twentieth century
