Life and Death on Your Own Terms Lofty L. Basta, 2001-05 This insightful, compassionate and lucidly written handbook by a world renowned cardiologist is also a personal testimonial by a surviving cancer patient and an informative guide to end of life issues. Dr. Basta relies on his medical expertise and first hand experience with a life threatening illness to critique our death denying, technologically obsessed culture and gives patients the means to take control of their final days. He underscores that physicians, the public and society as a whole must come to terms with the unalterable truth that life is finite and that medical intervention beyond a certain point only prolongs suffering. When a cure or hope of a better life ceases to be achievable, he urges comprehensive palliative care which attends to the patient's physical comfort, emotional reassurance and spiritual encouragement. To ensure that patients are empowered to provide for their final needs, he provides a revolutionary, clear, simple and medical scenario specific Advance Care Plan which gives each of us the opportunity to execute all important life and death decisions before we are afflicted with a serious health problem and before decisions are irrevocable. In sum, this book is a tribute to the highly treasured doctor-patient relationship. Readers who feel that doctors have lost touch with the patient's perspective will welcome Dr. Basta's empathy and caring tone.
