

COMMUNICATIONS REVENUE ACCOUNTING

KEY BUSINESS BENEFITS:

- Deliver more accurate financial tracking and reporting
- Improve operational control and compliance
- Reduce implementation and operational cost

Oracle Communications Billing and Revenue Management Integration Pack for Oracle E-Business Suite: Revenue Accounting provides a comprehensive and performance-optimized General Ledger (GL) integration between Oracle Communications Billing and Revenue Management and Oracle E-Business Suite Financials improving GL accounting, reporting and accuracy.

Product Overview

Tier-1 communications service providers (CSPs) typically have many billing systems supporting their business requirements. Timely and accurate financial reporting from each of these billing systems into a single financials system becomes a challenge. The Communications Revenue Accounting Integration Pack is designed to address this challenge by providing an automated import of general ledger reports from Oracle Communications Billing and Revenue Management to Oracle E-Business Suite Financials.

The Communications Revenue Accounting Integration Pack also calls for an automated scheduler to publish general ledger reports from Oracle Communications Billing and Revenue Management to Oracle E-Business Suite Financials. It provides new and enhanced capabilities for general ledger reports, such as incremental and cumulative revenue reporting, automated report regeneration, and the ability to customize reports. All of these features and enhancements are intended to help reduce the complexity and the time required to implement common integration functions between billing and financials systems.

Integration of Key Oracle Applications

The Oracle Communications Billing and Revenue Management Integration Pack for Oracle E-Business Suite: Revenue Accounting integrates the following Oracle applications:

- Oracle Communications Billing and Revenue Management 7.3.1
- E-Business Suite 11.5.10 (Oracle General Ledger)

Built on Oracle Application Integration Architecture, Oracle's next generation solution for uniting applications through pre-built business process integrations, the Communications Revenue Accounting Integration Pack comes with a flexible, standards-based framework that can be easily extended to meet your unique business needs.

The Routledge Companion to Accounting Communication Lisa Jack, Jane Davison, Russell Craig, 2013-05-02 One of the prime purposes of accounting is to communicate and yet to date this fundamental aspect of the discipline has received relatively little attention. The Routledge Companion to Accounting Communication represents the first collection of contributions to focus on the power of communication in accounting. The chapters have a shared aim of addressing the misconception that accounting is a purely technical number based discipline by highlighting the use of narrative, visual and technological methods to communicate accounting information. The contents comprise a mixture of reflective overview, stinging critique, technological exposition, clinical analysis and practical advice on topical areas of interest such as: The miscommunication that preceded the global financial crisis; The failure of sustainability reporting; The development of XBRL; How to cut clutter. With an international coterie of contributors including a communication theorist, a Big Four practitioner and accounting academics, this volume provides an eclectic array of expert analysis and reflection. The contributors reveal how accounting communications represent or misrepresent the financial affairs of entities, thus presenting a state of the art assessment on each of the main facets of this important topic. As such, this book will be of interest to a wide range of readers including postgraduate students in management and accounting, established researchers in the fields of both accounting and communications, and accounting practitioners.
